**Holidays and graduation ceremony dates may be subject to change.*

3. About the University

3.1 Overview

The University of Khorfakkan (UKF) is a non-profit higher education institution established in 2022 by His Highness Sheikh Dr. Sultan Bin Mohammed Al Qassimi, Member of the Supreme

Council, Ruler of Sharjah, and President of the University. UKF was founded with a vision to provide high-quality education, foster academic excellence, and contribute to the socio-economic and cultural development of the region.

The University boasts state-of-the-art infrastructure designed to support excellence in teaching, research, and community service. Its modern facilities, well-equipped laboratories, advanced learning resources, and dedicated faculty members create an environment conducive to innovation, intellectual growth, and student success.

UKF offers a diverse range of undergraduate programs across multiple disciplines, including Arts, Sciences, Information Technology, Business, Law, Sharia, and Marine Sciences. The University is home to four academic colleges:

- College of Arts, Sciences, and Information Technology
- College of Sharia and Law
- College of Business Administration
- College of Marine Science and Aquatic Biology

Currently, the University offers nine undergraduate degree programs that align with both national and international academic and industry standards. These programs are designed to equip students with the knowledge, skills, and competencies required to meet the evolving demands of the job market. The undergraduate programs offered at UKF include:

- Bachelor of Arts in History and Islamic Civilization
- Bachelor of Arts in Sociology
- Bachelor of Arts in Public Relations
- Bachelor of Arts in Communication
- Bachelor of Science in Computer Science
- Bachelor of Science in Business Administration
- Bachelor of Science in Marine Biology
- Bachelor in Law
- Bachelor in Sharia-Foundations of Religion

Through its commitment to academic excellence, research, and community engagement, the University of Khorfakkan aims to nurture future leaders, scholars, and professionals who can contribute meaningfully to society and the global economy.

3.2 Vision

Our vision is to become a leading institute for arts, sciences, marine, maritime research, innovation, and education programs amongst universities, research institutes, and industry.

3.3 Mission

The mission is to enhance, facilitate and deliver internationally recognized, cross-disciplinary and high-impact research and education in arts, sciences and marine sciences, and ocean engineering.

3.4 Strategic Goals

The University goals are as follows:

SG 1 Enhance Student Academic Support & Learning Resources

SG 2 Enhance Student Career & Professional Development

SG 3 Strengthen Student Health and Well-Being

SG 4 Strengthen Community Partnerships Supporting and Promote the University's Visibility

SG 5 Support Economic Development

SG 6 Environmental and Sustainability Initiatives

SG 7 Promote Teaching & Learning Best Practices

SG 8 Faculty and Staff Development

SG 9 Accreditation and Curriculum Enhancement

SG 10 Foster a Culture of Research and Innovation

SG 11 Promote High-Quality Publications & Patents

SG 12 Strengthen Research Infrastructure

SG 13 Revenue Generation and Diversification

SG 14 Optimize Resource Allocation and Digitization

SG 15 Talent Acquisition and Retention

3.5 Core Values

The core values of the University of Khorfakkan are:

- **Integrity:** UKF adheres to the highest ethical principles and works with integrity, and accountability to create trust and credibility.
- **Inclusiveness:** we welcome and value each other and embrace the diversity of ideas and people.
- **Innovation and creativity:** UKF works without bounds to improve lives through creativity and innovation in the pursuit of academic excellence.
- **Transparency:** UKF is committed to effective communication, through a variety of communication methods, with all our stakeholders (staff, students, alumni, partners, vendors, and the local and international community needs).
- **Excellence:** all UKF activities are conducted according to the highest international standards.

3.6 Strategic Objectives

STUDENT EXPERIENCE

1. Improve students' access to academic support and resources
2. Provide state-of-the-art technology & e-learning tools for students
3. Prepare students for successful post-graduation careers
4. Increase student involvement in clubs, organizations, & extracurricular activities
5. Improve student physical & well-being
6. Continuously gather student feedback and make improvements

COMMUNITY ENGAGEMENT

1. Contribute to community education and development
2. Promote university visibility, classification, and ranking
3. Involve alumni & stakeholders in the UKF's community efforts
4. Promote entrepreneurship and Emiratization

5. Contribute to local economic growth
6. Promote sustainability and environmental responsibility in the community
7. Conserve natural resources and reduce resource consumption

ACADEMIC EXCELLENCE

1. Promote academic infrastructure
2. Apply innovative teaching & learning strategies
3. Improve faculty expertise & engagement in research & teaching
4. Improve the faculty recruitment process and professional development
5. Develop a dynamic & relevant curriculum that prepares students for the real world
6. Enhance the quality assurance system

RESEARCH & INNOVATION

1. Create an environment that encourages research & innovation
2. Encourage Multi-Disciplinary Research Collaboration
3. Allocate a mini. of 5% of the operational expenditure to support research
4. Promote the quality of research outcome
5. Invest in cutting-edge research, innovation facilities and equipment
6. Establish Research Institutes/Centers/Labs

GROWTH AND EFFICIENCY

1. Increase enrolment rates across all colleges and programs
2. Increase student diversity across all colleges and programs
3. Ensure a stable & sustainable financial model
4. Introduce new programs for future jobs
5. Efficiently allocate resources
6. Digitize the university services
7. Attract top talent and skilled employees
8. Maintain top talented employees

3.7 University Characteristics and Advantages

The University of Khorfakkan (UKF) was established with a visionary goal: to embody the essential qualities shared by world-renowned universities while contributing to the academic, economic, and cultural advancement of the region. UKF is committed to excellence in

education, research, and community service, ensuring that students receive a holistic and impactful learning experience.

With a well-developed infrastructure that supports both teaching and research, UKF has successfully attracted distinguished faculty members with diverse international backgrounds and expertise. These faculty members play a crucial role in delivering high-quality education, mentoring students, and contributing to the University's growing research endeavors.

UKF is dedicated to fostering an intellectually stimulating environment that challenges students both inside and outside the classroom. By attracting talented students from diverse backgrounds, the University promotes inclusivity, critical thinking, and innovation, preparing graduates to excel in an increasingly globalized world.

Strategically located on the eastern coast of the Emirate of Sharjah, UKF is uniquely positioned to serve the educational and economic needs of the region. Recognizing the significance of marine sciences to the local economy, UKF is expanding its academic offerings to include specialized programs in this field, aligning with the region's natural resources and economic priorities.

The University's campus comprises three main buildings, housing modern facilities that support academic and extracurricular activities. UKF includes four colleges that collectively offer more than nine undergraduate programs across a variety of disciplines. Currently, the University serves approximately 1,300 students, with academic instruction provided by 67 faculty members who bring extensive international experience and expertise in their respective fields.

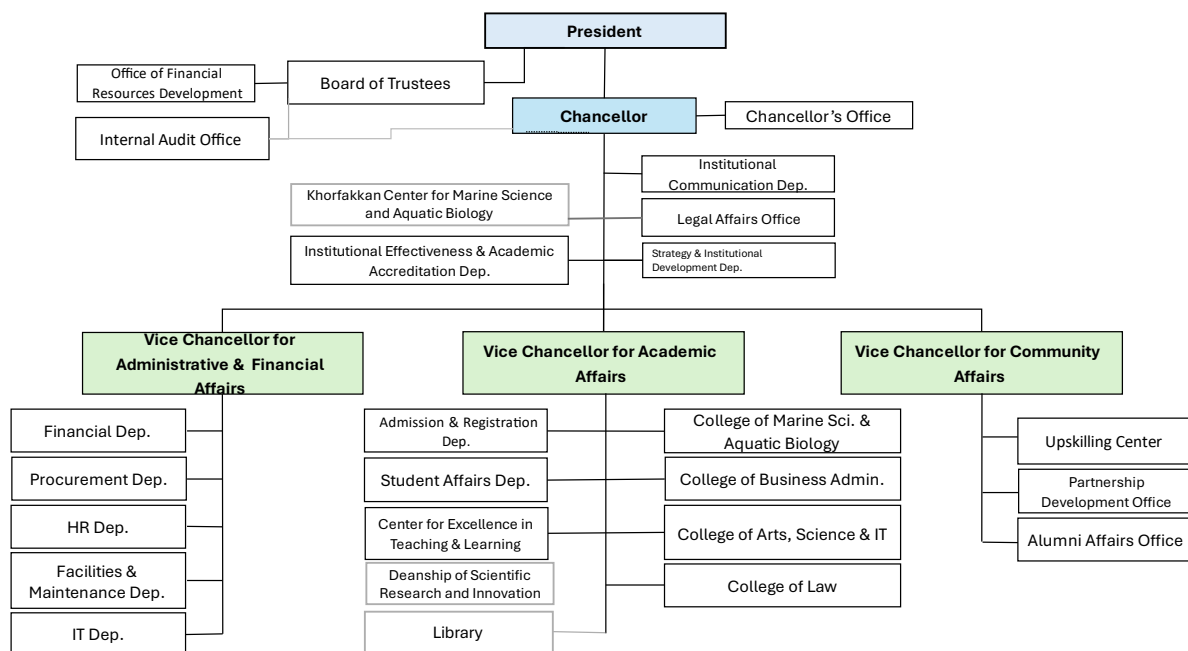

Through its commitment to academic excellence, research, and regional development, the University of Khorfakkan aspires to become a leading institution that not only meets but exceeds the expectations of students, faculty, and stakeholders, ensuring a lasting impact on both local and global scales.

4. Licensure and Accreditation

The University of Khorfakkan, located at Khorfakkan city, Emirate of Sharjah, is officially Licensed from June 8th, 2022 to May 19th, 2025 by the Ministry of Higher Education of the United Arab Emirates to award degrees/qualifications in higher education.

5. Organization Charts

The organization of UKF supports the achievement of its mission and facilitates its effective and efficient operation in line with its institutional vision. The organization chart indicates hierarchical and lateral relationships between different Units and Departments. The University President coordinates with the Board of Trustees to oversee the Institutional planning and main achievements of the University. The Chancellor supervises the day-to-day operations. Below is the current organizational chart for UKF, which has been approved by the President and the Board of Trustees.

6. Institution resources and physical setting

6.1 Academic Buildings

There are several classrooms on campus, and a hall where students can study and rest.

6.2 Library Resources

6.2.1 About library

The UKF Library is located at the heart of the university campus. It provides an enriching academic experience for UKF faculty, researchers and students. The UKF library serves as the intellectual, research, and community centre at the University of Khorfakkan. It is home to an extensive range of academic resources in print and digital format including journals, textbooks, and online databases, covering the disciplines of Sharia, law, sciences, business, information technology, marine science and more. These resources can be accessed physically by visiting the library's welcoming modern building or by exploring the library's advanced online portals which can be accessed through this link. In addition, the library offers a range of facilities and services to support the study and academic needs of students and faculty

including computers, Individual and group study rooms, a digital lab, Casual Reading and Study areas, Open lecture spaces, and library literacy programs.

6.2.2 Library staff

The UKF library has professional staff to assist users in their research by providing them with general and specialized reference services. The library staff help students and faculty to find library resources and also answer more detailed and technical inquiries. Reference questions can be submitted in person, by phone, or via email and via the library web page electronic forms. The UKF library and its staff are dedicated in supporting the University's diverse programs through:

- Providing an outstanding collection of information resources to meet the needs of UKF teaching and research activities and the community at large.
- Conducting information skills programs in individual and group sessions to empower users to identify, find, retrieve, evaluate, and use information resources.
- Promoting information and communication technology to be completely harmonious with the University's electronic environment and culture.

6.2.3 Library working hours.

The main library is located on the first floor of the building (A2). Our expert librarians are available in person—and online—to help navigate and explore our valuable collections and assist with papers, advice, and research projects, through a range of high-quality interactive services and tools.

The library working hours are from 7:30 a.m. until 7:00 pm Monday to Thursday and it is closed on Fridays, Saturdays, and Sundays.

6.2.4 Online Library Catalog

<https://library.ukf.ac.ae/en/>

The UKF community (Faculty, Students, and staff) can use and access the University of Sharjah (UOS) libraries, according to the (MOU) that was signed between the two universities to accommodate this, among other things.

6.3 Information Technology Center

The Information Technology Center (ITC) serves as a key support unit dedicated to establishing a robust technological infrastructure that meets the University's administrative IT needs while also facilitating and enhancing academic activities. ITC delivers innovative technologies and learning resources by providing integrated online services through the UKF portal. The Center is responsible for providing multimedia solutions and technical support to the classrooms to offer new teaching methodology and improve the educational use of technology. The IT Center provides the most up-to-date communication technology and information systems management to serve the University's activities. The IT department has a dedicated team that provides prompt and quality support services for all UKF communities and buildings. We strive to provide an environment where all faculty, staff, and students will have easy access to information resources by providing innovative technologies and learning resources, all linked through the UKF portal. Our support channels are mainly defined as self-service support (FAQs, IT Knowledge Base, Online request, IT Service Desk, and specialized support) and liaison with external support and IT-related services. The IT Service Desk can easily be reached by students, staff or faculty via email (servicedesk@ukf.ac.ae) or telephone (ext. 8111) to help with any IT related issues.

7. Cooperative relationships

The collaborative relationships of University of Khorfakkan are built on strong partnerships with both public and private organizations. Our valuable partners are key essential to the achievements of our educational and community engagement mission. UKF secures a productive research and community engagement portfolio through the following potential areas of collaboration; in joint and sponsored research, enriched academic program, exchange of research students, collaborations in hosting seminars, conferences and events. UKF seeks to engage with our local community through existing projects to improve our understanding of community needs. Increased awareness and engaged community are being implemented through discussion groups and forums, workshops and training programs, and engagement activities with our partners.

The university active partnerships include the following:

1. University of Sharjah
2. University of Exeter

3. Trends Research & Advisory
4. Sharjah Archaeology Authority
5. Sharjah Entrepreneurship Center-SHERAA
6. Sharjah City for Humanitarian Services
7. Artificial Intelligence Journalism for Research and Forecasting (AIJRF)
8. Al Ain University Libraries

8. Programs and degrees

The University comprises of 4 Colleges, 8 Departments, 3 Centers, 1 Library, 1 Central laboratories unit, and many sub-units (see Organizational Chart below). The University currently offers 9 accredited programs across the four colleges.

The College of Arts, Sciences, and Information Technology offers five programs including a Bachelor of Arts in History and Islamic Civilization, Bachelor of Arts in Communication-Radio & Television, Bachelor of Arts in Sociology, Bachelor of Arts in Public Relations, and Bachelor of Science in Computer Science. The College of Business Administration is offering a Bachelor of Science in Business Administration with concentrations in Management, Industrial Management, and Human Resource Management. The College of Shari'a and Law offers two programs: Bachelor in Law and Bachelor in Shari'a - Foundations of Religion. The College of Marine and Aquatic Biology offers one program: Bachelor of Science in Marine Biology.

Colleges and Accredited Programs at the University of Khorfakkan	
Colleges	Programs
College of Arts, Sciences, and Information Technology	Bachelor of Arts in History and Islamic Civilization – Tourist Guide
	Bachelor of Arts in Sociology
	Bachelor of Arts in Communication – Radio and Television

---	---------------------------------------

9. Admission requirements and procedures

9.1 General admission requirements

All applicants must satisfy the following general admission requirements:

- Applicants should have completed a secondary education, or an equivalent level with the required grade average for the program they are applying to, no earlier than three years before joining the university.
- Applicants should not have been expelled from the UKF or any other institution for academic or disciplinary reasons.
- Applicants should be medically, physically, and mentally fit to be admitted to the university in accordance with their desired major.
- Applicants should indicate their order of preference for their majors on the online application form.
- Applicants are accepted in different majors conditional to the student's preferences, their grade average, and the admission capacity of each college.
- Applicants should complete and submit the online application form and required documents to the Admissions and Registration Department by the stated deadlines and pay the application fee of AED 250.
- Applicants should be aware that meeting the secondary education grade requirements, as well as other admission requirements, and submitting the application, paying the application fees, and receiving an ID number do not automatically mean that an applicant has been admitted to the university. Students are required to pay a reservation fee after meeting specific criteria on a competitive basis, in accordance with university policy. Student reservation fees are non-refundable if the student withdraws or does not enroll in the University but are adjusted in the tuition fees if the student enrolls in his/her program.
- Applicants who are still reserving their seats will receive conditional admission until the finalized admission application results are submitted, and they fulfill the requirements based on competitive criteria.
- Applicants will not be issued an ID or allowed to register for courses unless the admission file is complete.
- Students who have been conditionally accepted will be given a specific period to fulfill the conditional admission requirements to continue their studies at the university.

9.1.1 Academic qualification requirements for undergraduate programs

All applicants must satisfy the following academic qualification requirements:

- Students applying to join the UFK must have completed his/her secondary education and have had, at least, 12 years of schooling prior to the date of application.
- Applicants should have graduated from a school licensed and recognized by the Ministry of Education in the UAE and must submit a certified copy of the secondary school certificates or its equivalent, with a grading script certified by the school and the Ministry of Education or the Education Zone in the UAE.
- Applicants who attended school outside the UAE should have graduated from a school recognized by the official education authority in the country of study. Certificates submitted must be authenticated by the Education Authority in the country of study, such as the Ministry of Education, Boards of Education, or the British Council, the Ministry of Foreign Affairs in the country, then the relevant Embassy of the United Arab Emirates or the Embassy of the Country in the UAE, and the Ministry of Foreign Affairs of the United Arab Emirates.

9.1.2 Secondary Certificates from foreign countries and/or educational systems

- **Applicants holding a High School Diploma (American system), or its equivalent, may be admitted upon meeting the following requirements:**
 - Applicants have completed 12 years of study by the time they have finished secondary education and must provide proof thereof.
 - Applicants' certificates are recognized and equivalenced by the Ministry of Education in the UAE.
 - Applicants must have studied 6 courses in the fields of Mathematics, Sciences, Social Studies, and Languages with English as the language of instruction.
 - The Diploma study track (Literature or Science) is determined based on the courses studied in the 12th year (Two Science and one Mathematics subjects constitute a Science Track).
- **Applicants holding Certificates from the British System (IGCSE, GCSE, GCE) may be admitted upon meeting the following requirements:**
 - Applicants have completed 12 years of study by the time they have finished secondary education and must provide proof thereof.
 - Applicants' certificates are recognized and equivalenced by the Ministry of Education in the UAE.
 - Applicants' grade average will be calculated based on special criteria specified by the University of Khorfakkan, and the student must meet the criteria of minimum average required for the desired Major. The highest 7 grades obtained will be

considered as follows:

- A minimum grade of C in 5 O-Level subjects, and a minimum grade of D in 2 AS-Level subjects or;
- A minimum grade of C in 6 O-Level subjects, and a minimum grade of E in one A-Level subject.
- The courses should cover at least four areas of study: Mathematics, Sciences, Social Studies, Fine Arts & Design, and Languages.
- For an applicant to be considered as a graduate of the Science Track in secondary education she/he must have successfully studied at least 2 Science and one Mathematics subject at O-Level and AS-Level or A-Level.
- The UKF may award up to 12 credits for students who have successfully achieved a grade of C or better in specific A-Level subjects if he/she takes substitute courses instead of the authorized elective courses according to the student study plan.
- **Applicants holding an International Baccalaureate Certificate (IB) may be admitted upon meeting the following requirements:**
 - Applicants must have 12 years of study by the time she/he has finished secondary education and must provide proof thereof.
 - Applicants' IB Diploma must be awarded in accordance with the IB Board requirements, and recognized and equivalenced by the Ministry of Education in the UAE
 - Applicants must have successfully completed at least 6 subjects during secondary school (IB) distributed over four subject areas: Mathematics, Sciences, Social Studies and Humanities, and Languages. Three of these must have been completed at the higher level (HL).
 - Applicants must have scored a total of no less than 24 out of 45 points. The student's grade average will be calculated based on the criteria specified by the University of Khorfakkan.
 - Applicants IB's study track (whether literary or science) is determined by the subjects studied during secondary school. For the IB to be counted as a scientific track, the student must have studied at least two science subjects and one mathematics subject.
 - The university may award up to (12) credit hours for students who have successfully achieved a grade of (5) or higher in specific high-level (HL) subjects if he/she takes substitute courses instead of the authorized elective courses according to the student study plan.

9.2 Required documentation for Bachelor program applicants

The following documents are required to apply for a Bachelor program offered at UKF:

- 1) A valid copy of the applicant's passport
- 2) A copy of UAE National Family Registry for local applicants
- 3) Copy of a valid residence visa for non-local applicants
- 4) A certified copy of the applicants Secondary School Certificate or its equivalent.
- 5) 4 recent passport-sized color portrait photos
- 6) A health fitness certificate from a university hospital or clinic, or any Governmental authority in the UAE (the form can be downloaded from UKF's admission website)
- 7) A valid Good Conduct Certificate
- 8) A copy of Birth Certificate
- 9) A copy of UAE National Identity Card
- 10) A copy of Mother's passport
- 11) AED 250 cash in application fees (non-refundable)
- 12) An English language proficiency certificate (TOEFEL, IELTS, PTE or EmSAT)

Additional requirements for applicants with foreign certificates

- 1) Document proving that the student completed 12 years of school.
- 2) Certified copy of grades 10-12 certificates and the graduation certificate
- 3) Equivalency certificate from the Ministry of Education in the UAE
- 4) A document proving that the provided High School Certificate is accepted by governmental universities in the country from which the certificate is from.

Additional requirements for UAE local male students

- 1) National service completion letter or no objection to completing the study from the Authority of National Service and Reserve.
- 2) Additional requirements for Kuwait students: No objection letter from the Consulate General of the State of Kuwait - Cultural Office in UAE specifying the program the student is allowed to take at the University of Khorfakkan.
- 3) Important notes:
 - Certificates issued from inside the country must be authenticated by the educational institution in which the student studied in the country, and the Ministry of Education.
 - Certificates issued from outside the country must be authenticated by the official educational authority in the country of study (such as the Ministry of Education, Boards of Education, the British Council ...), the Ministry of Foreign Affairs, and the embassy of the United Arab Emirates in the country of study, or the Embassy of the Country in the UAE, and the Ministry of Foreign Affairs of the United Arab

Emirates.

9.3 Admission Procedure

- The first step in the admission process requires the student to fill out the electronic admission application, upload the required documents, and pay the application fee.
- The student will receive an admission application response within 3 to 5 working days via email. The admission process will be continued further conditional to the eligibility status of the applicant.
- The eligible candidates whose application has been accepted for admission must reserve their seat by paying an amount of AED 12,000. This amount will be considered as preliminary payment for the tuition fees subject to the student's enrollment. Please note that, in case of withdrawal or non-enrollment in the university, an amount of AED 3,000 will be deducted from this initial payment.
- Upon successful completion of seat reservation process, the student must submit all required documents including an attested/notarized copy (original) of their previous educational documents (secondary school certificates and others), passport size photos, and original certificates for English proficiency tests such as TOEFL, IELTS, or the UAE standardized test (EmSAT), if applicable, and any additional documents requested by the admissions office.

Note: The students cannot obtain university ID cards or register for the courses unless all the required documents are submitted to the Office of Admissions and Registration.

- The student should apply for one of the admission tests according to the college or program requirements.
- The student should register for the studies within the specified time by strictly following the schedule of UKF academic calendar.

9.4 Admission Requirements for Undergraduate Programs

The grade average and proficiency requirements for attending the various programs in the different Colleges at UKF are listed in the Table below:

College	Major	Teaching Language	GPA/Track			English Proficiency Tests	Other/ Interview
			General	Sci/Adv	Elite	IELTS	

College of Arts, Sciences and Information Technology	Bachelor Of Arts in History and Islamic Civilization- Tourism Guide	Arabic	70%	65%	60%	4.5	Interview in Arabic
	Bachelor Of Arts in Communication - Radio and Television	Arabic	70%	65%	60%	4.5	Interview in Arabic
	Bachelor of Arts in Public Relations	Arabic	70%	65%	60%	4.5	Interview in Arabic
	Bachelor of Arts in Sociology	Arabic	70%	65%	60%	4.5	Interview in Arabic
College Sharia and Law	Bachelor In Shari'a - Foundations of Religion	Arabic	75%	65%	60%	4.5	Interview in Arabic
	BS in Law	Arabic	80%	75%	70%	5	Interview in Arabic
College Business Administration	BSc in Business Administration	ENG	80%	70%	65%	5	Interview in English
College Marine Science & Aquatic Biology	BSc in Marine Biology	ENG	90%	75%	70%	5	Interview in English

Notes:

- ARA = Arabic; ENG = English
- The grade averages listed above represent the minimum required for admission to the respective program. Please note that students meeting the above grade average requirements are not guaranteed admission but will still be subject to competitive regulations and standards.

9.5 Application fees

The tuition fees for attending the various programs in the different Colleges at UKF are listed in the Table below:

Colleges	Majors	Tuition Fees (AED)		
		Semester	Year	Credit Hour 1 (Fall & Spring)
Colleges Of Sharia & Law	Bachelor in Foundations of Religion	21,450	42,900	1,788
	Bachelor of Law	23,126	46,251	1,927
	Bachelor of Arts in Sociology	21,458	42,915	1,788
	Bachelor of Arts in History & Islamic Civilization - Tourist Guide			
	Bachelor of Arts in Public Relation	29,684	59,367	2,474

	Bachelor of Arts in Communication - Radio and Television			
College of Business Administration	Bachelor of Science in Business Administration	28,906	57,812	2,409
College of Marine Sciences & Aquatic Biology	Bachelor of Sciences in Marine Biology	26,818	53,636	2,235

The University along with third parties provide students a sponsorship against their studies at the University of Khorfakkan. As per certain criteria the students would be eligible for sponsorship and would be offered total fees sponsorship or tuition fees sponsorship or partial fees sponsorship.

The University offers discounts to the students against tuition fees based on their eligibility. The total financial aid should not accumulatively exceed 50% at any point in time.

9.6 Financial aid

9.6.1 Non-sponsor discount

The University offers 50% discount to students that are not eligible for any sponsorship.

9.6.2 High school discount

The University offers a 50% discount for the first semester only for students who achieved 90% or more on their high school degree

9.6.3 Distinction discount

The University offers a discount for distinct students which their semester GPA is above 3.6:

- 35% discount for GPA 3.60 – 3.79
- 40% discount for GPA 3.80 – 3.99
- 50% discount for GPA 4.00

9.6.4 Sibling discount

The University offers a 10% discount as a sibling discount, this is offered only to one of the siblings in each family and which has the lowest tuition fees.

If you have any questions regarding fees and/or financial support at UKF, please contact the Finance Department at UKF via email (email: ahmed.ibrahim@ukf.ac.ae) or by phone (+97192085827). The working hours are Monday-Thursday, 8:00am to 4:00pm.

9.7 Contact details for the Admissions and Registration Department at UKF.

If you have any questions regarding admissions to programs at UKF, please contact the Admissions Department at UKF via email (email: admission@ukf.ac.ae) or by phone (+97192085000). The working hours are Monday-Thursday, 7:30am to 3:30pm.

9.8 Policies and procedures

9.8.1 Student Transfer Policy

The University of Khorfakkan is committed to supporting student mobility and recognizes the value of academic credits earned at other accredited institutions. Students may apply for transfer to the university, provided they meet the eligibility criteria and adhere to the established procedures. The University of Khorfakkan will evaluate transfer applications on a case-by-case basis, ensuring that transferred credits meet the academic standards of the university and are applicable to the student's chosen program of study. Transfer decisions will be made in a fair and timely manner, with consideration given to the student's academic performance and the compatibility of courses completed at the previous institution. (For more details, please see the Student Transfer Policy IN Appendix).

9.8.2 Remedial courses policy

The University of Khorfakkan is committed to providing remedial courses to support students in achieving the academic proficiency necessary for success in their college coursework. Remedial courses are designed to help students build the skills needed to meet the academic expectations of their degree programs.

This policy ensures that students who enter university with academic deficiencies receive the support they need to reach their full potential and succeed in their academic pursuits. The following guidelines apply:

Assessment and Placement: Students who do not meet the minimum required standards may be placed in remedial courses. They are conditionally admitted to university.

Course Structure: Remedial courses are designed to address specific deficiencies in students' knowledge or skills. These courses are developmental in nature and focus on building a strong foundation in critical areas such as math, reading, and writing.

Credit: Remedial courses do not count towards the total credit hours required for graduation. However, successful completion of these courses is often a prerequisite for enrolling in college-level courses.

Support Services: In addition to classroom instruction, students enrolled in remedial courses may have access to additional academic support services, such as tutoring, study groups, and advising, to further aid their progress.

Evaluation: Students' progress in remedial courses will be regularly assessed to ensure they are achieving the desired learning outcomes. Successful completion of remedial courses will allow students to advance to credit-bearing, college-level coursework.

Transition: Once students successfully complete the necessary remedial courses, they will be eligible to enroll in the required college-level courses for their degree program. Their status will be changed from conditional enrolment to official enrolment.

9.8.3 Withdrawal policy

A student may withdraw from one or more courses during the first week of the semester without recording the course on his transcript. He may also withdraw from one or more courses during the first eight weeks of the semester with the approval of the college Dean and the recommendation of the course instructor in accordance with a special form prepared by the Admission and Registration Department. The Director of Admissions and Registration and the Chairman of the Department shall be advised in writing of the decision, and a grade of (W) shall be recorded in the student's transcript.

The following shall apply when a student has been absent, either excused or unexcused, for 20% or more of scheduled class meetings in which s/he is currently enrolled (including excused absences):

- i. If the 20% limit is reached on or before the last day to withdraw from classes, as specified in the academic calendar, then the course instructor will assign a letter grade of WA (Withdrawn Administratively).
- ii. In all other cases a letter grade of WF (Withdrawn after Deadline) will be assigned.
- iii. All appeals should be referred to the Student Appeals Committee, which will provide a recommendation to the VCAA whose decision shall be final. Students applying for an appeal must provide all necessary documentation within three days of the grade (WA or WF) notification.

9.8.4 Readmission policy

Suspension of Registration

- i. The student's status will be deemed under suspension if the semester starts, and he has not registered for that semester.
- ii. If the student stops his studies for two consecutive or separate semesters, he shall be dismissed from the program but may be re-admitted by a Council decision.
- iii. A student who has lost the right to study because of study suspension or withdrawal from a program may apply for re-admission. If admission conditions in his old program are satisfied, he may be re-admitted by following the regular admission procedures. His academic record shall be kept intact, and he shall be permitted to resume the program in accordance with the study plan approved after his re-admission provided that the period of suspension or withdrawal does not exceed four years.

9.8.5 Probation and dismissal policy

As per the University Bylaws, article 22 of the Regulations on granting bachelor's degrees at the University of Khorfakkan, a student shall be dismissed from the university by a decision from the Deans Council in any of the following cases:

1. If a student receives three consecutive academic warnings while studying in the same major.
2. If the total number of academic warnings received by the student during their tenure at the university reaches five, regardless of whether they are consecutive or not.
3. If a student receives two academic warnings within one academic program and then transfers to another program, the student shall be dismissed from the university if they receive two consecutive academic warnings in the new program immediately after the transfer. In this case, transferring to another academic program is not permitted.
4. If a student's cumulative GPA falls below 1.00 point on more than one occasion during their enrollment at the university.

9.8.6 Refunding and charges for withdraw student policy

1. Students shall be eligible for Refund in the following cases:

Scenario of Refund	Documents Required
Students who have received Scholarship after paying the Tuition Fees	<ol style="list-style-type: none">a. Scholarship Certificate / Sponsorship Letter (Indicating the % of Scholarship)b. Payment receipt

Scenario of Refund	Documents Required
Withdrawal of application from UKF before Census date	a. Clearance Certificate from University b. Payment receipt
Dorms Deposit	a. Clearance Certificate from the concerned department. b. Payment receipt
Visa Deposit when applicable	a. 'Confirmation on Cancellation' from Passport Section b. Payment receipt
Surplus in Graduate Student Account	a. Clearance Certificate from University

2. A Refund can be requested through finance department.
3. Refunds shall be processed once a month i.e. at the end of the month if the required documents (along with the Form) are submitted 5 days prior to processing date.
4. Refunds shall be directly credited to the account holder from whom the initial payment has been received.
5. Students need to submit a no objection letter from the Sponsor to get the refund amount in case the credit balance is available in the student account from Sponsor support.
6. Dorm refund for students who withdraw from dorms shall be calculated with the following guidelines.

Timeline	Penalty
Within first month	25% of the total Housing Fees
Within second month	50% of the total Housing Fees
After second month	100% of the total Housing Fees

9.8.7 Financial aid opportunities and scholarship policy

1. Student Fees for the Semester/Program shall be approved by the Finance Committee before the commencement of admission for the Semester/Program.

2. Based on the Courses and Programs enrolled by the students and the respective approved fee structure, a tuition fees Invoice shall be issued to non-sponsored Students after the 'Add & Drop' period. Other services shall be invoiced upon the completion of the service/request.
3. A Student/ Sponsor Invoice shall contain following particulars:
 - "Student Invoice" (or "Sponsor Invoice" in case of Sponsor) clearly displayed at the top
 - The name, address, logo of UKF
 - Invoice Number
 - The date of issue of Invoice
 - Student Name and ID
 - Sponsor's Name and Address (If Applicable)
 - Detail of Semester/ Program
 - The gross amount payable expressed in AED
 - Payment due date
 - Stamp of UKF Finance Department
4. In case the service provided to Students are taxable, a "Standard Tax Invoice" shall be issued with the following additional particulars:
 - The words "Tax Invoice" clearly displayed at the top
 - Tax registration number of UKF
 - The Tax amount payable expressed in AED
(Please refer to VAT Policy for more details).
5. Discounts and scholarships shall be applied and accordingly calculated as per the "Discount & Scholarship Framework".
6. Discounts and scholarships shall be applied on the gross tuition fees if the student receives partial financial support.

Collection and Follow-up from Students

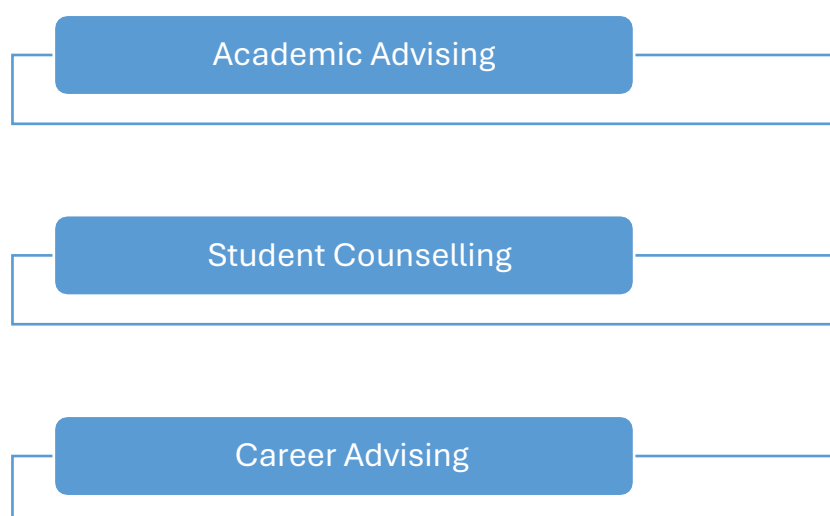

1. The following mode of Payments are available for Students to pay their Fees.
 - Online/ Credit Card
 - Direct Deposit in UKF bank account
 - Cheque (Current and Post Dated)
2. Upon confirmation of Student application, a Student ID shall be created and access to the student online portal shall be provided by the Admission and Registration Department.
3. Students are encouraged to pay through student online portal unless the payment mode is through cheques, wherein the student shall deposit at UKF Collection Counter.
4. Postponement of cheque deposits shall only be approved by Finance Director if following conditions are fulfilled:
 - 50% of the outstanding is immediately paid; and

- Deposit of Cheque is deferred up to 10 days.
- 5. Current dated or post-dated cheques received from Student shall be tracked separately and adjusted prior to follow-ups with Students for the outstanding balances.
- 6. Two instances of bounced cheques by a Student, shall result in Student ID being flagged. This will disable acceptance of Cheque as a mode of payment for the respective student.
- 7. On semester basis, or when needs arise, Finance Director shall also request Admission and Registration Department to provide list of Students exposed to academic dismissal/ disciplinary actions/ withdrawals to access the recoverability of outstanding amount.
- 8. Document Control and Record-Keeping Unit shall issue the Graduation Certificate and Official transcript to Students only after obtaining NOC from Finance Department / Accounts Receivable and shall deactivate the Student ID.

10. Student services

10.1 Student Advising

The student advising process at the University of Khorfakkan is three-fold, as shown in the figure below:

10.1.1 Academic Advising

Each college is responsible for providing academic support and services to its students to promote and facilitate the students' experience and learning. Every student is assigned an academic advisor when they start UKF, and students are required to meet with their supervisor every semester. Academic advisors assist students in developing career goals, registering for courses, understanding university policies and regulations, and connecting to campus resources. The University also provides advising

and guidance for all freshmen as part of the student orientation program during their first week at UKF. This introduces students to important information about the University and its facilities, academic support services, registration, and academic probation, curricular- and extracurricular activities, time management, and study skills. For more information on academic advising, kindly refer to the Student Affairs Department and/or to your respective college.

10.1.2 Student Counselling

This service aims at developing students' balanced personalities at the psychological, social, emotional, and mental levels. In doing so, the Student Affairs Department abides by the values of confidentiality, integrity, and privacy. The Department is keen on developing its counselling, training, remedial and diagnostic programs considering the international philosophy that the student is the focus of the educational process. Students' academic achievement depends on their possession of life skills and psychological state. To accomplish its mission, the Department aims to accomplish the following goals:

- Enabling students to become more dependent on themselves in solving their problems efficiently and helping them develop their skills.
- Offering counselling services and holding workshops and training seminars at the level of individuals and groups throughout the period of study at the University.
- Following up on the affairs of the students with low levels of achievement to identify the causes and offer programs to raise the students' motivation to learn and improve their achievement and overcome the problems they may encounter.
- Supporting special needs students throughout their university study.

10.1.3 Career Advising

In accordance with Students Affairs Departments mission, which put the student in the focus of importance, through all processes of educating, teaching, training, qualifying, and building up their skills and attitudes to be an active member of society, a career plays a vital role by leading and overseeing the professional build-up process of the student, which, no doubt, represents the integrative result of all preceding processes done by different university entities and colleges.

10.2 Health Care

The University provides a medical clinic for male and female students on a 24-hour basis, plus ambulance services for emergency help whenever needed. All University students were required to have health insurance in any one of the following three schemes:

1. Health card issued by the Ministry of Health. In addition, students shall pay University fees to use University medical services in emergency cases and for primary routine treatment.
2. Health card issued by a private insurance company. In addition, students shall pay University fees to use University medical services in emergency cases and for basic routine treatment.
3. The University shall contract a health insurance company with competitive costs for interested students. In this case, students could benefit from university clinic services alongside those of the insurance company without paying extra fees.

10.3 Safety and Security

Safety-first concept plays an essential role in creating and maintaining a safe environment. The University of Khorfakkan considers all university community members as partners in providing a safe and secure campus to pursue students' personal or professional goals.

All students of the UKF are encouraged to be active in maintaining a safe and secure community. Any safety concerns should be reported to the Campus Security or Dorm Supervisors. A safe and secure living community for residents is essential. Students are strongly urged to carry their keys and lock the door when not in the room. Any action on the part of a resident that threatens the safety and security of another resident, or their property will result in disciplinary measures. Potentially dangerous activities might include, but are not limited to, providing, or allowing entry to non-residents or unauthorized individuals, propping locked doors, loaning keys, accessing student rooms other than one's own without permission, and/or taking another's property.

10.4 Transportation

UKF provides free transportation in air-conditioned shuttle buses to all students from different points in Khorfakkan, Kalba, Dibba, Fujairah to the University Campus. Buses transport students to the university from the designated locations at two different times, 7:00 am and 9:00 am. They also transport students back to the designated locations at 1:20 pm, 2:20 pm, and 3:20 pm. In Khorfakkan, there are 6 gathering points. In Kalba, there are 3 gathering points. In Dibba, there is only one gathering point at Dibba Club. In Fujairah, there is only one gathering point at Alghurfa. The transportation to and from the University is secure and reliable, and students who do not own cars don't need to worry about how to get to the University.

Here you can find the full details about transportation schedule:

KHORFAKKAN	KALBA	DIBBA ALHISN
Departure To University	Departure To University	Departure To University

<ul style="list-style-type: none"> - AL Lo'loyah Park : 7:15 AM - Atika School : 7:15 AM - Al Mudaifi (Behind municipality building) : 7:25 AM - Al Mudaifi Park : 7:30 AM - Al Abrar Kindergarten : 7:40 AM - Al Zubara Park : 7:10 AM 	<ul style="list-style-type: none"> - Al Sedra Park: 7:00 AM - English School: 9:00 AM - Al Corniche Park: 9:00 AM 	<ul style="list-style-type: none"> - Dibba Al-Hisn Club : Two periods 6:50 AM
---	--	--

11. Student rights and responsibilities

The University of Khorfakkan is dedicated to fostering an educational environment that upholds students' rights while promoting mutual respect, accountability, and academic excellence. Students are entitled to quality education, freedom of expression, fair treatment, privacy, and participation in university governance. In return, they are responsible for maintaining academic integrity, respecting others, adhering to university policies, and actively participating in their academic and community life.

12. Student appeals and complaints

The University of Khorfakkan is committed to fairness, transparency, and accountability in its academic and administrative processes. The Student Appeals Policy allows students to formally contest academic, financial, or disciplinary decisions. Appeals should first be resolved informally between the student and instructor. If unresolved, they can escalate through the following steps:

Procedures:

1. Informal Resolution: The student and instructor should first attempt to resolve grade-related or minor academic integrity violations amicably.
2. Department Chair Appeal: If unresolved, the student may appeal to the department chair.
3. Dean Appeal: If no resolution is reached, the appeal may be escalated to the dean of the college.

4. VCAA Appeal: If still unresolved, the student or dean may bring the matter to the Vice Chancellor for Academic Affairs (VCAA), whose decision is final for instructor-imposed sanctions.
5. Formal University Appeals:
 - Appeals must be submitted in writing with new information via an online request to the Office of Admissions and Registration.
 - After approval, the appeal is reviewed by the Student Appeals Committee, which gathers relevant information and considers academic progress or special circumstances.
 - The committee makes a recommendation to the VCAA, who makes the final decision.
 - The student is notified in writing, and the final decision is recorded in their file.

This process ensures that student appeals are handled fairly, efficiently, and with due consideration of all relevant factors.

13. Academic integrity

UKF is committed to the principles of truth and academic honesty. It is the responsibility of all UKF community members – students, faculty, staff and administration alike – to promote academic integrity through active deterrence and reporting of violations.

Academic misconduct is any action that violates the principles of academic integrity, including but not limited to:

- Cheating: Using unauthorized materials, information, or devices in any academic exercise.
- Plagiarism: Representing someone else's work or ideas as one's own without proper attribution.
- Fabrication: Falsifying or inventing any information or data in an academic exercise.
- Facilitation: Helping or attempting to help another student commit an act of academic misconduct.
- Unauthorized Collaboration: Working with others on an assignment or project without the instructor's permission.

The university is committed to ensuring that all instances of academic misconduct are addressed promptly and fairly. Students found guilty of academic misconduct will be subject to disciplinary action, which may include a failing grade on the assignment or course, suspension, or expulsion from the university. All cases of academic misconduct will be documented and repeat offenses will result in more severe penalties.

14. Institution Definitions

An undergraduate program: a course of study at the university that leads to the attainment of a bachelor's degree. Typically, undergraduate programs are designed to be completed in three to four years of full-time study and involve a combination of general education courses, major-specific courses, and elective courses.

Bachelor's degree: In the UAE, a bachelor's degree normally requires at least four but no more than five years of full-time study, with a minimum of 120 semester credits (or equivalent). The maximum number of hours may vary, but many bachelor's degrees in professional fields, such as engineering or dentistry, require five years of study and at least 150 semester credits (or equivalent).

Credit Hours: A unit that measures educational credit, typically based on the number of classroom hours per week throughout a term. Most undergraduate programs require a certain number of credit hours to graduate, which includes both core and elective courses.

Grade Point Average (GPA): A numerical representation of a student's average performance across all their courses, usually on a 4.0 scale. The GPA is calculated by dividing the total number of grade points earned by the total number of credit hours attempted.

Core Curriculum: A set of common courses required by all students, usually in the areas of humanities, social sciences, natural sciences, and mathematics, which ensures a well-rounded education.

Major Requirements: Specific courses and academic activities that students must complete to earn a degree in their chosen field of study. This includes both required courses and electives within the discipline.

Cumulative GPA: The overall GPA that includes all coursework taken over the duration of a student's undergraduate program.

Academic Standing: The status of a student based on their GPA and adherence to the university's academic policies. Good academic standing is typically required for graduation.

Residency Requirement: The minimum amount of time or credit hours a student must complete at the university to be eligible for a degree. This ensures that students earn a significant portion of their credits directly from the institution.

Graduation Clearance: The process by which the university verifies that a student has met all academic and administrative requirements for graduation.

15. Completion Requirements

15.1 Completion Credit Hours

15.1.1 College of Arts, Science, and Information Technology

Bachelor of History and Islamic Civilization - Tourism Guidance

The student must successfully complete 123 credit hours to obtain a Bachelor of History and Islamic Civilization / Tourist Guidance Course, which is distributed as listed in the following table:

	University Requirements	Program Requirements	Total Credit Hours
Mandatory Courses	18	78	96
Elective Courses	6	21	27
Total	24	99	123

Bachelor of Arts in Sociology

The student must successfully complete 123 credit hours to obtain a Bachelor of Arts in Sociology, which is distributed as listed in the following table:

	University Requirements	College Requirements	Program Requirements	Total Credit Hours
Mandatory Courses	18	-	54	72
Elective Courses	6	15	24	45
Supportive Courses		-	6	6
Total	24	15	84	123

Bachelor of Arts in Communication - Public Relations

The student must successfully complete 123 credit hours to obtain a Bachelor of Arts in Communication – Public Relations, which is distributed as listed in the following table:

	University Requirements	College Requirements	Program Requirements	Total Credit Hours
Mandatory Courses	18	15	27	60
Elective Courses	6	-	15	21
Supportive Courses	-	-	42	42
Total	24	15	84	123

Bachelor of Arts in Communication – Radio and TV

The student must successfully complete 123 credit hours to obtain a Bachelor of Arts in Communication – Radio and TV, which is distributed as listed in the following table:

	University Requirements	College Requirements	Program Requirements	Total Credit Hours
--	----------------------------	-------------------------	-------------------------	-----------------------

		Requirements		
Mandatory Courses	18	15	27	60
Elective Courses	6	-	15	21
Supportive Courses	-	-	42	42
Total	24	15	84	123

15.1.2 College of Shari'a and Law

Bachelor in Shari'a – Fundamentals of Religion

The student must successfully complete 126 credit hours to obtain a Bachelor in Shari'a – Fundamentals of Religion Course, which is distributed as listed in the following table:

	University Requirements	Program Requirements	Department Requirements	Total Hours	Credit
Compulsory Requirements	18	63	18	99	
Elective Courses	6	12	-	18	
Supporting Requirements	-	9	-	9	
Total	24	84	18	126	

Bachelor in Law degree

The Bachelor in Law degree program comprises 132 credits distributed in three categories: University requirements (UR), college requirements (CR), and program requirements (PR). The credit hours allocations in each category are listed in the following table:

	University Requirements	Program Requirements	Total Hours	Credit
Compulsory Requirements	18	99	117	
Elective Courses	6	9	15	
Total	24	99	132	

15.1.3 College of Business Administration

Bachelor of Science in Business

The Bachelor of Science in Business Administration requires that a student completes 120 credits of courses as per its approved curriculum and attains a minimum Cumulative GPA of 2.00.

Courses	University Requirements	College requirements	Concentration	Total
General Education	24	-	-	24

15.1.4 College of Marine Sciences & Aquatic Biology

Bachelor of Science in Marine Biology

To obtain a Bachelor of Science in Marine Biology the student must complete 121 credit hours as per the below overview table:

	University Requirements	College Requirements	Program Requirements	Total
Mandatory Credits	18	44	47	109
Elective Credits	6	-	6	12
Total	24	44	53	121

15.2 Degree and program

Graduation requirements are established by the college granting the degree. The total degree credits required to complete the university's undergraduate degree programs will vary but in no case will they be less than 120 semester credit hours. Students shall make steady progress towards meeting degree requirements within the maximum allowable time.

The provisions of the CAA Standards, in all cases, shall prevail while the provisions of this policy shall be fully applied possible.

To be eligible for graduation from the University of Khorfakkan, undergraduate students must:

1. **Complete Required Credits:** Fulfill the total number of credit hours required by their specific degree program, including general education, major-specific courses, and electives.
2. **Maintain a Minimum GPA:** Achieve a minimum cumulative GPA (2.0 on a 4.0 scale) as specified by their academic program.

3. **Satisfy Core and Major/Concentration Requirements:** Successfully complete all required courses within their major/Concentration, as well as any core curriculum requirements, with passing grades.
4. **Adhere to Time Limits:** Finish their degree within the maximum allowable time frame. The University allows 6 years for full-time students, unless an extension is granted under special circumstances. Part-Time students are allowed to complete their degree within 8 years. A student may be placed on hold for up to three semesters while pursuing their study at the university.
5. **Clear Administrative Requirements:** Fulfill all administrative obligations, including the submission of required forms, payment of any outstanding fees, and return of university property.

16.2 College Arts, Sciences and IT Courses

Bachelor of Arts in History and Islamic Civilization – Tourist Guide

المؤهلات الوطنية	مخرجات التعلم
k1 معرفة حقيقية ونظرية متخصصة وفهم للحدود في مجال العمل أو التخصص، تشمل مجموعة معارف ومبادئ واسعة ومتسقة مع تعمق كبير في المبادئ الأساسية والمفاهيم النظرية	يدرك المعارف التاريخية والحضارية اللازمة لمهنة الارشاد السياحي.
S2 تقويم واختيار وتطبيق الطرق والإجراءات أو الأساليب الملائمة في عمليات البحث عن إيجاد حلول	
CA1 تمكنه تحمل مسؤولية تطوير طرق مبتكرة ومتقدمة لتقويم وإدارة إجراءات العمل المعقدة وغير المتوقعة، والعمليات أو الموارد أو التعلم.	
CB2 تمكنه تحمل مسؤولية إعداد وإنجاز المخرجات الجماعية أو الفردية وإدارة والإشراف على عمل الآخرين أو نفسه في حالة التخصص في مجال العمل أو التخصص.	
Cc1	

مخرجات التعلم	المؤهلات الوطنية
	مكنه تقويم نفسه وتحمل مسؤولية الإسهام في الممارسة المهنية وإجراء التطوير المهني المنتظم و/ أو التعلم الإضافي
يلتزم بأخلاقيات المهنة والعادات والتقاليد المجتمعية في مجال الارشاد السياحي وقيادة المجموعات السياحية.	2 فهم للمعارف والنظريات المتصلة في مجالات العمل أو التخصصات ذات الصلة، وفي حالة التخصصات المهنية متضمنة اللوائح والمعايير والقواعد والاتفاقيات ذات الصلة. CC3 يمكنه إدارة مهام التعلم باستقلالية ومهنية في سياقات التعلم المعقدة وأحيان غير الشائعة.
	S1 مهارات تقنية وابتكارية ونظرية متخصصة ملائمة لحل المشاكل المتخصصة باستخدام عمليات قائمة على الأدلة والإجراءات في السياقات المتوقعة والجديدة التي تشمل استنباط واستدامة الحجج المتعلقة بمجال العمل أو التخصص
	ca1 تمكنه تحمل مسؤولية تطوير طرق مبتكرة ومتقدمة لتقويم وإدارة إجراءات العمل المعقدة وغير المتوقعة، والعمليات أو الموارد أو التعلم
	cb3 يمكنه المشاركة في عالقات الأقران مع مشاركين مؤهلين، وقيادة مجموعات معقدة متعددة
يستخدم بنجاح المهارات المعرفية في السياحة والارشاد السياحي في بيئة العمل.	K1 معرفة حقيقية ونظرية متخصصة وفهم للحدود في مجال العمل أو التخصص، تشمل مجموعة معارف ومبادئ متنسقة مع تعمق كبير في المبادئ الأساسية والمفاهيم النظرية
	C3:2 يمكنه إدارة التعلم
يطبق مهارات التفكير الناقد لحل المشكلات التي تواجه مهنة الارشاد السياحي بطرق مبتكرة.	K4 فهم شامل للتحليل الدقيق وأنظمة وطرق البحث وأساليب التقويمية لحل المشكلات
	S3 تقويم وتنفيذ أدوات واستراتيجيات البحث الملائمة المتعلقة بمجال العمل أو التخصص
	C1:1 يمكنه تحمل مسؤولية تطوير طرق مبتكرة ومتقدمة لتقويم وإدارة إجراءات العمل المعقدة وغير المتوقعة، والعمليات أو الموارد أو التعلم
	K5

مخرجات التعلم	المؤهلات الوطنية
يحدد أبرز المقاصد الأثرية والسياحية والتراثية في دولة الامارات ومنطقة الخليج العربي	الإلمام بمصادر البحوث والمعرفة الحالية والجديدة مع دمج المفاهيم من المجالات الخارجية S4 مهارات تواصل وتكنولوجيا معلومات متقدمة ومتطورة للغاية لتقديم وشرح أو نقد المسائل المعقدة وغير المتوقعة C1:3 يمكنه العمل بشكل مبتكر أو بفعالية كفرد أو كقائد فريق في إدارة السياقات عبر الأنشطة التقنية أو المهنية
يمارس المهارات التسويقية ومهارات الاتصال الفعال في مجال العمل.	K4 فهم شامل للتحليل الدقيق وأنظمة وطرق البحث والأساليب التقييمية لحل المشكلات. s4 مهارات تواصل وتكنولوجيا معلومات متقدمة ومتطورة للغاية لتقديم وشرح و/ أو نقد المسائل المعقدة وغير المتوقعة. Ca2 يمكنه إدارة العمليات التقنية أو الإشرافية أو التصميمية في السياقات غير المتوقعة وغير المألوفة والمتغيرة CB4 يمكنه تحمل مسؤولية إدارة التطوير المنهي والمراقبة المباشرة للأفراد والمجموعات. CC3 تمكنه إدارة مهام التعلم باستقلالية ومهنية في سياقات التعلم المعقدة وأحيان غير الشائعة
يدرك أهمية العمل الجماعي والتطوير الذاتي في مهنة الارشاد السياحي.	k5 الالمام بمصادر البحوث والمعرفة الحالية والجديدة مع دمج المفاهيم من المجالات الخارجية. S4 مهارات تواصل وتكنولوجيا معلومات متقدمة ومتطورة للغاية لتقديم وشرح و/ أو نقد المسائل المعقدة وغير المتوقعة. CA3 يمكنه العمل بشكل مبتكر و/ أو بفعالية كفرد أو كقائد فريق في إدارة السياقات عبر الأنشطة التقنية أو المهنية CB3 يمكنه المشاركة في عالقات الأقران مع مشاركين مؤهلين، وقيادة مجموعات معقدة متعددة.

17.1.1 Course Description

MANG200 Fundamentals of Innovation and Entrepreneurship

A non-conventional highly interactive course designed to provide UKF students with unique experience in identifying the concepts of innovation, sustainability, entrepreneurship, growth and leadership. At a practical level, this course equips students with the necessary design thinking and entrepreneurial skills and tools to enhance their personal development, business-oriented mindset, and future professional career.

SHRF100 Islamic Culture

This course explores the concept of Islamic culture, its significance, key characteristics, sources, and components. It highlights the core values emphasized in Islamic teachings, such as knowledge, compassion, peace, citizenship, and tolerance. Additionally, the course examines major challenges facing society, including family-related issues, the phenomenon of extremism, and violence that threatens intellectual security, as well as their impact on human life.

EDUC102 UAE Society

This course covers Emirati studies, focusing on the formation and structure of the Emirati society, its characteristics, and its components. It also examines the nature of prevailing social organizations (family, education, health, and economy), human development, sustainability, quality of life, and future aspirations. Additionally, the course discusses social change, social issues, and their relation to globalization and modern technologies.

INFT100 Introduction to IT

This course is designed to provide students with a working knowledge of computer concepts that includes exploring various topics in computing hardware and software. Moreover, it covers evolving trends in information technology fields such as multimedia, networking & cloud computing, cybersecurity, data science, IoT, and artificial intelligence. In addition, this course will equip the students with hands-on training in basic data analytics, data visualization, problem-solving, and basic programming concepts.

ENGL112 English for Academic Purposes

This course focuses on academic reading and writing skills, including extensive work in reading comprehension and retention. Students will practice identifying topics, determining the main idea of a text, recognizing the supporting details of a paragraph, recognizing authors' writing patterns, and understanding new vocabulary through context clues. Emphasis is given to the rhetorical structures of the cause-and-effect essay.

ARAB102 Arabic

The Arabic language course covers the essential and supporting components that enable students to express their emotions, thoughts, and communicative purposes in reading and writing using correct Arabic. It also enhances their ability to engage positively in various dialogue situations, demonstrating proficiency in comprehension, fluency, argumentation, and persuasion. Additionally, the course equips students with the skills to identify and correct errors in spoken or written language.

17.2 College of Arts, Science, and Information Technology

Overview

The College of Arts, Sciences and Information Technology (CoASIT) was established in 2022, when the University of Sharjah' branch in Khorfakkan was transformed to the University of Khorfakkan. CoASIT consists of six departments: History, Sociology, Communication, Information technology,

Languages and Basic Sciences, which offer undergraduate degrees in the following majors: History and Islamic Civilization-Tourism Guidance, Sociology and Communication. In addition to a postgraduate program in History and Islamic Civilization. The College is planning to offer more undergraduate and postgraduate programs in the near future. In addition, the College offers University required courses to a large number of students in the first and second years in other Colleges.

The College also strives to elevate the standards of academic research in various advanced areas of research, teaching and learning. As it will be highlighted in the subsequent sections of the strategic plan, CoASIT aims to spread, disseminate, and foster research through collaborations with local, regional, and international institutions.

College Vision

The College of Arts, Sciences, and Information Technology at the University of Khorfakkan envisions itself as a vibrant scientific and educational institution that is open and welcoming, creative and adaptable, dynamic, and regionally renowned for excellence in education, research, and community outreach programs.

College Mission

CoASIT is the home of the humanities and basic sciences programs at the University of Khorfakkan, which is striving to be one of the region's leading universities. Where faculty, staff, and students work collectively to create, share, and apply knowledge. CoASIT's main mission will be to improve the nation and the world through its graduates, scientific discoveries, and outreach programs.

College Goals

- Offer academic programs that promote innovative and critical thinking, social responsibility, and leadership in multicultural environments.
- Contribute to the nation's socio-cultural, scientific, and economic growth through community based and innovative scientific research.
- Produce graduates with the right employability skills, who are capable of autonomous problem solving, as well as working within teams.
- Provide its students with the necessary work Ethics and professional integrity.
- Build close ties to the community via outreach programs that promote intellectual skills and lifelong learning.

17.2.1 Bachelor of History and Islamic Civilization - Tourism Guidance

Program Mission

The mission of this program is to produce highly qualified graduates with sound knowledge of the field and Modern research skills. This will enable them to pursue doctoral programs and meet the needs of the country and the region.

Program Goals

The Bachelor of History and Islamic Civilization - Tourism Guidance Course aims to:

- Graduate an Arab guide capable of giving an honest picture of the region's history, customs, and traditions.
- Meet the needs of the labor market in this field by the people of the country and the Arab region.
- Develop the student's historical and cultural knowledge sufficient to deepen their sense of their own identity.
- Provide intensive training in tourist guidance, which enables the student to give a good impression of the Arab-Muslim community.
- Prepare and qualify leaders in tourism and hotel business.

Program Learning Outcomes

The graduates of this program will be able to:

1. Recognize the historical and cultural knowledge necessary for the profession of tourist guidance.
2. Commit to professional ethics and community customs and traditions in tourist guidance and leadership of tourist groups.
3. Successfully utilize cognitive skills in tourism and tourist guidance in the work environment.
4. Apply critical thinking skills to solve problems facing the tourist guide in innovative ways.
5. Identify the most prominent archaeological, tourist, and heritage destinations in the UAE and the Arabian Gulf region.
6. Practice marketing skills and effective communication skills in the work field.
7. Recognize the importance of teamwork and self-development in the tourist guide profession.

Career Opportunities

The history program tourist guidance course is considered one of the promising programs. The opportunities available to graduate students are diverse, ranging from tourism departments - organizations working on youth, family, and childhood activation - hotels and resorts - travel and tourism companies - tourism associations and organizations - tourism and hospitality clubs - airports and transport companies - youth homes - youth activation clubs - universities, research centers, and tourist observatories - exhibitions and festivals - leadership of diplomatic and cultural missions - culture and information departments

Program Goals

- Provide the students with the knowledge that qualifies them to work efficiently in the radio and TV industry in line with the requirements of the labor market.
- Train and qualify students to practice the arts and sciences of radio and TV professionally as a continuous and advanced profession.
- Introduce the students to obtain employment opportunities in various radio and TV sectors and help them through it.
- Train the students who wish to study radio and TV and provide them with theoretical, applied, and research information that enables them to face current challenges.
- Provide the students with an understanding of the roles and functions of radio and TV in society.
- Prepare the students for specialized careers in news reporting, radio, multimedia, and specialized communication.
- Give the required knowledge regarding the production process in radio and TV and make students able to describe historical and technical influences, understand research methods for audience analysis, and know the mechanisms of the radio and TV media industry.

- Give the students the skills to operate electronic equipment for visual and audio media while running computer programs.
- Enable the students to produce illustrated programs that reflect skill and professionalism in performance.
- Enable the students to develop their skills in news writing distinctly.

Program Learning Outcomes

The graduates of this program will be able to:

1. Define common terms in the media and communication sciences and the fields of radio and TV.
2. Describe communication functions, impacts, and societal roles.
3. Analyze the reality of the media at its different levels: local, Arab, and international, and the factors affecting its practices.
4. List the foundations of good radio and TV production, its basic components, and elements.
5. Discuss laws, legislations, and ethics regulating media work, and concepts related to freedom of speech and cultural and social diversity locally and globally.
6. Evaluate the dimensions and components in media works and writings in general and radio and TV reports and programs in particular in an integrated critical manner.
7. Apply group learning and brainstorming skills in dealing with different media phenomena and various radio and TV works.
8. Use different statistical ways and methods to address media issues and problems.
9. Critically assess theoretical and applied developments, elements, and components related to the fields of radio and TV.
10. Use tools and equipment to produce radio and TV programs and distinct documentaries and masters the processes of filming, editing, and directing these programs.
11. Prepare, present, and direct various radio and TV works, based on professional and ethical standards and the values, traditions, and needs of society.

Career Opportunities

Radio and TV Program: Job opportunities in major media organizations that qualify you to work as:

- Program Producer.
- TV director.
- Radio and TV presenter.
- A representative or news reporter in radio and TV.
- Producer of programs in radio and TV.
- Radio and TV News Editor.
- TV editor.
- Cameraman.

[COMR401] [Special topic in communication] [3 credits]

The course examines current issues related to media and communication and their intersections with social, political and cultural events at the local, regional and global levels. Potential topics include the impact of technological innovations on media production and consumption, the implications of increased interdependence and mediation in economic, cultural, and social transformations in the region and beyond, development and media, among others. The course is flexibly designed to allow students to investigate in more depth the diverse topics linked to their interests in a way that can help them develop potential research or practical ideas and projects.

[COMR421] [Documentary] [3 credits]

The course includes an introduction to documentaries or documentaries, and their various forms. The course also deals with different artistic trends, such as romantic and realistic ones. The course also includes knowledge and dealing with various terms and concepts of production, the steps of preparing and processing artwork, and identifying the similarities and differences between documentary production and fictional production. With the planning and implementation of individual or group projects inside or outside the college studios.

[COMR453] [Directing in radio and television] [3 credits]

This course aims to introduce the components of television and radio studios of all kinds, the nature of the technical uses of the devices and how to employ them, define the importance of the director

and his role in selecting and identifying the appropriate work team and leading it in a creative way, clarifying the coordination mechanism between the team in a way that provides smooth implementation, introducing the student to the most important technical methods of directing and clarifying the relationship. The director interprets the text and translates it into visual television scenes or radio stations, and the student is trained through the course to direct many program templates on radio and television.

[COMR455] [Graduation Project for TV and Radio] [3 credits]

The course aims to measure the extent to which the student has benefited and learned during his studies in the specialization. The course is a measure of the student's achievement in writing for television, filming, montage, directing and television production. Students do individual or bilateral projects such as documentaries, docudrama, short dramatic films, campaigns, advertising, awareness campaigns, and TV programs.

[COMR456] [Directing for radio and television II] [3 credits]

The course aims to introduce the student to the role of the director in the creative and aesthetic aspects of artwork in radio and television. The course also shows the preparation processes for the production of radio or television programs. The course explains the difference between the recording director and the dramatic director, in addition to clarifying the director's relationship with the screenwriter, production manager or executive producer, and the rest of the work team. The course also explains the role and duties of assistant directors and the method of implementing and unloading work and production schedules and orders of all kinds. The course also includes practical applications in the production of audio-visual materials.

[COMR459] [Field Training] [3 credits]

The course requires that the student spend (120) actual hours in the training place for a maximum period of three months and a minimum of two months, and it is calculated based on the working hours at the training site. The training takes place under the supervision of each of the field supervisors at the training entity, who is responsible for providing the student with field skills in the field of specialization, following up on his development and commitment, and in coordination with the academic supervisor responsible for following up the student at his training site and monitoring his daily, weekly and quarterly performance. The training axes in the focus of radio and television include the fields of radio and television preparation and production of all kinds in programs, news bulletins and documentaries, in addition to the skills of preparing and editing news in radio and television, and preparing, presenting and producing audio-visual materials and programs.

[HIST350] [Introduction to Tourism Science] [3 credits]

The course introduces the student to the concept of tourism, its definition, and stages of development, as well as identifying the most important elements of tourism, such as the elements of supply and demand and introducing the student to the most important elements of tourism and its patterns with applications to the UAE. The course also includes the definition and analysis of global tourism in general and in the UAE in particular, and the effects of direct and indirect tourism on the economy, environment, and social aspects.

[HIST351] [Geography of the Arabian Gulf] [3 credits]

The student learns about the geographical location of the Arab Gulf countries and studies the distinctive geographical aspects of the Arabian Gulf by identifying its terrain, climate, wealth, and human resources as its ability to develop and grow and monitors the most prominent civilizations that the region has known.

[HIST354] [Specialized English Language] [3 credits]

The student studies the specialized terminology in English that the guide deals with, whether with tourist devices or with the tourist, which qualifies them to perform their job as a tour guide.

[HIST355] [Hospitality Industry] [3 credits]

Introducing the student to the most important international tourism organizations and the most important official and unofficial tourism bodies in the United Arab Emirates and their role in organizing and activating the incoming tourism movement.

[HIST455] [Tour Groups Management] [3 credits]

The student is trained in the arts of group management, preparing tourist guidance plans, tightening methods of persuasion, and maintaining the safety and security of tourists.

[HIST461] [Consumer behavior] [3 credits]

This course aims to introduce the student to the consumer, their types of behaviors, the steps of making a travel decision, and to identify the consumer in all their social, economic, and psychological aspects, and to identify the difference between the goals of the trip and the motives of travel.

[HIST463] [Tourist Guidance] [3 credits]

Through this course, the student will learn about the most prominent archaeological, touristic, cultural, heritage, archeology, and arts of the United Arab Emirates. This course helps the student to gain experience of leading tourist delegations and introducing them to the country's historical and cultural treasures. Most of this course is preferred to be taught in archaeological, artistic, and national sites, and part of the degree is devoted to oral exams at archaeological sites due to the importance of highlighting communication skills with tourists.

[HIST462] [Field Research (Field Project)] [3 credits]

Introducing the student to the most important international tourism organizations and the most important official and unofficial tourism bodies in the United Arab Emirates and their role in organizing and activating the incoming tourism movement.

[HIST464] [Tourism Agencies and Organizations] [3 credits]

Introducing the student to the most important international tourism organizations and the most important official and unofficial tourism bodies in the United Arab Emirates and their role in organizing and activating the incoming tourism movement.

[HIST464] [Public Finance and Financial Legislation] [3 credits]

This course includes the study of the general budget, public expenditures, public fees, public loans, legislation regulating banking business in the country, legislation regulating investment, and legislation regulating customs.

[HIST465] [Tourism and cultural heritage] [3 credits]

This course aims to provide students with a group of cultural and heritage assets about the United Arab Emirates, which helps the tourist attraction process to identify archaeological and historical sites, tourist sites, national parks, and other sites that fall within the framework of the tourism and cultural heritage of the UAE. It also examines the development of heritage cultural tourism resources and products with primary or secondary destinations. It equips students with a group of cultural and heritage assets that can become viable and oriented towards tourist attractions including museums, performing arts, historic sites, and national parks. Topics include current and future trends of cultural heritage, the role of organizations working in the field of tourism and cultural heritage, and the use of cultural heritage resources for economic development.

[HIST468] [Tourism Legislation] [3 credits]

The study of the most prominent laws and frameworks governing the practice of the tourist guide profession, through which the student learns about the local and international legal applications of various fields of tourism.

[HIST469] [Public Relations] [3 credits]

Through this course, the student learns about the importance of tourism marketing and its types and the importance of public relations as one of the components of tourism activation, through which the

tourist guide learns the principles of protocol and etiquette necessary in dealing with the tourist consumer, and the ability to face the problems that may face while performing all their guiding tasks.

[HIST470] [Field Training (Research Project)] [3 credits]

In this course, the student receives field training courses in leadership, supervision, management, and organization of groups from the time of arrival to the time of departure.

[SOCI101] [Introduction to Sociology] [3 credits]

This course aims to Introduce sociology, its origin, development, and its relationship with other social sciences. It analyzes some of the main topics like culture and personality, social construction, socialization, social interaction, social processes, and social systems. In addition, it Studies social transformations and their various productions.

[SOCI102] [UAE Society] [3 credits]

This course deals with the study of UAE society in terms of its origins, social composition, characteristics and constituents. The course also deals with the study of the nature of prevailing social organizations (family, education, health, and economy), human development, social change, social problems, and their relationship with globalization and modern technologies.

[SOCI111] [Arab Society] [3 credits]

This course aims to Introduce sociology, its origin, development, and its relationship with other social sciences. It analyzes some of the main topics like culture and personality, social construction, socialization, social interaction, social processes, and social systems. In addition, it Studies social transformations and their various productions.

[SOCI151] [Social Theories (1)] [3 credits]

Presenting the nature of social theory and how it is formulated. The relationship between theory and research. The contribution of prominent scholars of the nineteenth century in the field of theory, especially positivism and constructivism with their various intellectual tributaries.

[SOCI152] [Social Theories (2)] [3 credits]

Introducing the most important poles of social theoretical trends since the Second World War. Presenting and analyzing schools: Modernized Functional Constructivism, Modernized Marxism, Symbolic Interactionism, Phenomenology, Ethnomethodology and Critics of Social Theory.

[SOCI183] [Popular culture] [3 credits]

Introducing popular culture, its topics, and cognitive frameworks. Studying methods for collecting, classifying cultural materials and heritage elements, and analyzing the relationship between elements of popular culture and some social phenomena. The impact of popular culture on strengthening national identity and belonging. Coexistence and conflict between popular culture and modern culture.

[SOCI202] [Social texts in English] [3 credits]

Introducing texts that contain major knowledge, concepts, and methods in sociology. Studying theoretical approaches in classical and contemporary sociology. Analysis of texts on the problems of development, change, women, urbanization, and industrialization.

[SOCI222] [Social and cultural change] [3 credits]

Clarifying the concept of change and its various forms, addressing the factors of change, the theories explaining it, social change, the process of comprehensive development, and the change that Arab societies are experiencing because of modernization processes, social change, and foreseeing the future.

[SOCI223] [Urban Sociology] [3 credits]

Studying urbanization and the formation of new communities, theoretical trends in the analysis of the phenomenon of urbanization, urbanization patterns, and urban lifestyle. Problems associated with the urbanization process: high population density, unemployment, informal construction, adequacy of necessary facilities, coexistence, and conflict of rural and urban culture.

[SOCI225] [Social and Community Service] [3 credits]

Defining the community, the goals achieved by serving in the community, the philosophy of working with small groups, the way of organizing the community, and economic, social, and community development.

[SOCI240] [Introduction to social work] [3 credits]

Service history, service objectives, service philosophy and importance, service relationship with other social sciences, service methods (for the individual, group, organization), holistic approach to the practice, and service related to the development and community progress.

[SOCI241] [Social Psychology] [3 credits]

Introduction to psychology and sociology, theories, and methods used in studying behavior. Studying social factors that affect the formation of social personality. Forming and changing attitudes and associated behavioral patterns.

[SOCI242] [Collective behavior] [3 credits]

Introducing collective behavior at the level of small and major social units, analyzing different models of collective behavior, types of organized gatherings like union and party gatherings, and spontaneous gatherings like demonstrations and rebelling. Studying public opinion collectively.

[SOCI243] [Disabled and Community] [3 credits]

Various factors that define the concept of disability. The means of controlling and monitoring disability in society, the position of the disabled in the subculture of local groups, and the extent to which society is prepared as individuals, groups, and institutions to take care of the disabled.

[SOCI244] [Introduction to social welfare] [3 credits]

History of social welfare, social welfare in religions, especially in Islam, social integration in Islam, theories of social welfare, institutional and individual orientation, foundations of social welfare provision in the four fields (health, education, housing, and other social services).

[SOCI291] [Introduction to Research Methods] [3 credits]

Introducing the scientific method and the basics of social research, the relationship between social research and social theory, methods of social research: descriptive, historical, experimental, steps of social research, methods of data collection, and methods of processing.

[SOCI305] [Sociology of Labor] [3 credits]

Introducing the sociology of labor in terms of its origin and development, the concept of the development of the work process, labor organizations and their impact on defending the interests of the workforce, analyzing the problems of industrial work such as absenteeism, work turnover, strikes, and unemployment, and understanding labor relations after them as a reflection of power relations and methods of rationality within the factory or the position of class in the broad society, and the social conditions of contemporary employment.

[SOCI331] [Social problems] [3 credits]

Introducing social problems, the most important theoretical approaches in studying problems, and ways to solve them. Analyzing some social problems such as drug abuse, crime, overpopulation, poverty, racism, and inequality.

[SOCI333] [Juvenile delinquency] [3 credits]

Studying the development of the phenomenon of juvenile delinquency, analyzing the circumstances, and factors driving juvenile delinquency, and the related social cost. Addressing the change in juvenile delinquency patterns in the world in general and the Arab world in particular. Discussing appropriate plans and programs to address problems related to juvenile delinquency.

[SOCI334] [Social control] [3 credits]

Introducing the sociology of labor in terms of its origin and development, the concept of the development of the work process, labor organizations and their impact on defending the interests of the workforce, analyzing the problems of industrial work such as absenteeism, work turnover, strikes, and unemployment, and understanding labor relations after them as a reflection of power relations and methods of rationality within the factory or the position of class in the broad society, and the social conditions of contemporary employment.

[SOCI372] [Women and development] [3 credits]

Women and the division of labor system in society. The extent to which the role of women is valued inside and outside the family, the relationship between the status of women, and the distribution of wealth and power. The impact of social, educational, religious, economic, and political institutions in shaping the impact of women in the development process.

[SOCI374] [Sociology and the family] [3 credits]

Theoretical trends in the study of family, kinship systems, marriage system, socialization, the development of the relationship between the family and society, change and family, and social policies of the family.

[SOCI393] [Social Research Design and Applications] [3 credits]

Measurement levels and types of variables. Types and characteristics of social research, sampling, social research design, and practical applications on the SPSS statistical package program.

[SOCI393] [Research Project] [3 credits]

Under the supervision of the professor, the student conducts field training on the application of research methods, ranging from formulating the research problem and setting hypotheses for it, choosing the appropriate theoretical framework that guides the research, using data collection tools, and classifying and unpacking the data, to draw conclusions.

[SOCI412] [Social Organizations] [3 credits]

The emergence and development of social organizations, the most important theoretical trends they address, the patterns of social relations within organizations, the integration and conflict between social and cultural reality and rational methods within social organizations, and the management of organizations in the Arab world between the ideal model and tribalism.

[SOCI413] [Economic Sociology] [3 credits]

Studying the relationship between different social and economic systems, the impact of economic processes on the live social reality, and the impact of economic and social relations on achieving well-being or rooting underdevelopment in society.

[SOCI414] [Field Training] [3 credits]

Highlighting the importance of field training in understanding social phenomenon, enabling the student to link theory and reality using the applied practical approach, and training in writing field research reports.

[SOCI415] [Religion and Society] [3 credits]

Introducing the religious phenomenon and its origin and development, analyzing the mutual relationship between religion and various social, cultural, and political factors and their repercussions on the processes of control and socialization, religious movements, and political practice in contemporary societies.

[SOCI418] [Management and evaluation of social enterprises] [3 credits]

Introducing the concept of managing and evaluating the institution, presenting and analyzing the theories and methods used, and the importance of adapting the institution to social reality by involving individuals and groups in the design and implementation of projects. The ability of the institution to meet the requirements of society and overcome the difficulties it faces.

[SOCI461] [Introduction to Demography] [3 credits]

Introducing demography through the development of population theory, identifying the sources of population data, knowing the methods used in studying the distribution and structure of the population, analyzing population data, the relationship between population growth and economic growth, and its impact on the formation of attitudes towards the reproductive process.

[SOCI462] [Migration and population] [3 credits]

Measurement levels and types of variables. Types and characteristics of social research, sampling, social research design, and practical applications on the SPSS statistical package program.

[SOCI493] [Applied Sociology] [3 credits]

Introducing applied sociology and its areas of use, a critical review of models of applied social research, studying the best scientific methods for diagnosing and solving social problems, and the contribution of applied sociology to rationalizing the decision-making process related to development.

[SOCI393] [Research Project] [3]

Under the supervision of the professor, the student conducts field training on the application of research methods, ranging from formulating the research problem and setting hypotheses for it, choosing the appropriate theoretical framework that guides the research, using data collection tools, and classifying and unpacking the data, to draw conclusions.

17.3 College of Shari'a and Law

17.3.1 Bachelor in Shari'a – Fundamentals of Religion

Program Mission

Forming a distinguished Islamic personality with a deep understanding of Islam based on Qur'an and Sunnah and preparing specialists to meet the needs of society.

Program Goals

The Bachelor of Fundamentals of Religion Course aims to:

- Provide students with the basics of Islamic knowledge and its various fields, creed (Creed [Aqidah], preaching [da'wah], tafsir, and hadith).
- Provide the student with the knowledge and practical skills to be a successful teacher, researcher, and advocate.
- Serve the community by enlightening people about their religion and clarifying the position of Islam on contemporary issues.
- Promote the values of belonging to the religion, nation, and homeland.

Program Learning Outcomes

The graduates of this program will be able to:

1. Know the terminology of Hadith, Islamic jurisprudence (Fiqh), and its sources.
2. Recognize the fundamental principles in Quranic sciences, jurisprudence, and rules of interpretation (Tafsir).
3. Review theories and rules related to the fundamentals of Islamic creed (Aqeedah), jurisprudence, and Islamic preaching (Da'wah).
4. Evaluate concepts related to religion and creed in a scientific and methodological manner and contribute to their correction and evaluation.
5. Analyze contemporary problems and challenges in the field of creed, jurisprudence, and religious fundamentals using evidence and proof.
6. Acquire knowledge and skills to achieve continuous learning and knowledge development in a new and specialized environment.
7. Use scientific research skills in preparing appropriate academic research.

Career Opportunities

Graduates are offered many and varied job opportunities in education and higher education, imamate and rhetoric, religious guidance, media and Islamic programs, the Department of Awqaf and Islamic Affairs, the role of the Qur'an and Sunnah, in addition to opportunities to enroll in postgraduate studies.

17.3.2 Sharia Course Description

[SHRF100] [Islamic Culture] [3 credits]

This course deals with the concept of Islamic culture and its characteristics and highlights its various sources and comprehensive fields: Aqidah, worship, and ethics, as well as the mechanisms of Islamic culture in consolidating the concept of sustainability, tolerance, and leadership development.

[SHRF111] [Islamic Aqidah I] [3 credits]

The definition of Aqidah, its importance and the need for it, its origin and stages, the impact of Aqidah on the individual and society, the approach of the Holy Qur'an in stressing the role of Aqidah, inference about the existence of Allah Almighty and types of evidence, monotheism and its types, the names of Allah and His supreme attributes, prophecy, the divine message, and the need of humans for the divine

message, methods of proving prophecy, the doctrine of the end of prophecy, and the belief in the heavenly books.

[SHRF122] [Sciences of the Qur'an] [3 credits]

Introducing the history of the sciences of the Qur'an and its development, the most important works in it, and its most important topics: revelation in Mecca and Medina, the reasons for revelation, the collection of the Qur'an, the occasions and arrangement of the Qur'an, the knowledge of the first and last verses to be revealed, the translation of the Qur'an, the abrogated and abrogator, different Qur'anic readings, the solid, the debatable, and the included.

[SHRF130] [Jurisprudence of the Prophet's Biography] [3 credits]

This course deals with the definition of the Prophet's biography, the study of its incidents, and the stages of the life of the Messenger of Allah (peace and blessings of Allah be upon him) from birth to death. Focusing on important events and invasions and studying them analytically to identify the lessons learned from them, as well as refuting the suspicions raised about the personality of the Prophet (peace and blessings of Allah be upon him).

[SHRF132] [Sciences of Hadith] [3 credits]

Explaining the definition of the science of hadith, its subject, importance, origin, most important sources, its documentation, documentation of the Sunnah, types of hadith to the extent it reached, the number of its narrators, then accepting or rejecting it, and the qualities of those whose narrations are accepted and those who are rejected.

[SHRF212] [Islamic Aqidah II] [3 credits]

Defining the Prophet and the Messenger, the obligation to believe in the prophets, humanity's need for prophecy, the characteristics of the prophets and the revelation and its types, the prophecy of Muhammad, peace be upon him, and its evidence, the infallibility of the prophets, the ranks between them, the obligation to believe in the Last Day, the evidence of the resurrection, the signs of the Hour, the torment and bliss of the grave, the horrors and facts of the Last Day, the obligation to believe in destiny and its evidence, the difference between predestination and destiny, the actions of the servants, and the effects of belief in destiny.

[SHRF220] [Methods of Statement in the Holy Qur'an] [3 credits]

This course deals with the introduction to the Arabic statement methods used in the Holy Qur'an, the history of the science of the statement, and the characteristics of Qur'anic expression. This course also includes several statement topics, which are: sentence types, the introduction and delay and their purposes, deletion and mention, definition and denial, shortening, separation and connection, analogy, metaphor, metonymy, and rhyme. It examines practical examples from the Holy Qur'an and the Sunnah of the Prophet on issues of the sciences of the statement.

[SHRF221] [Qur'an: Recitation, memorization, and Tajweed I] [3 credits]

The course deals with the explanation of introductions to Tajweed, the melody of both types: clear and hidden, the three levels of reading, the definition of the science of Tajweed and its virtues and a brief of its history, the provisions of the noon; sukoun (◌ْ) and tanween (◌َ), the provisions of the sukoun meem (◌ِ), the ghunna and its provisions, and the Madd and its types and lengths. The rulings are applied to some of the last ten Juz's of the Holy Qur'an.

[SHRF222] [Tafsir Analysis I] [3 credits]

Introducing the science of tafsir, its sections, and books, and studying the verses from the following surahs: Surat Al-Anfal verses: (1-30), Surat At-Tawbah (38-96), Surat Al-Ahzab (1-73), Surat Al-Hujurat (full), and understanding what is meant by these verses correctly, and following the provisions they contain, along with identifying the reasons for the revelation, the famous sayings of the Salaf, the known occasions and readings affecting the meaning, studying controversial issues in interpreting and applying the rules to them, deducing benefits from the verses, and applying the commands and prohibitions mentioned in the verses.

[SHRF223] [Interpretation of the verses of rulings] [3 credits]

This course includes several topics and issues such as: the rule of Islam on magic, the subject of retribution and its impact on achieving the security of society, fasting and its educational effects on the human soul, the obligation of Hajj and its humanitarian implications, usury and its destructive effects on society, the subject of polygamy, the halal and haram of food, and the crime of theft and banditry.

[SHRF231] [Hadith rulings I] [3 credits]

Introduction to the hadiths of rulings, the impact of hadith on jurisprudence and the differences of jurists, and an analytical modern jurisprudential study of selected hadiths on matters of worship: purity, prayer, zakat, fasting, and hajj.

[SHRF232] [Hadith Analysis I] [3 credits]

Studying selected hadiths from the forty hadiths of al-Nawawi with their chains of transmission and their texts, an analytical study from various aspects, and explaining the aspects of deduction and inference for the benefits and rulings indicated by the text. Studying the hadiths of Kitab al-Adab from Sahih Muslim with the explanation of Imam al-Nawawi. Provided that topics are selected for analytical study in the classroom and the course professor assigns students to another group to self-reading under the knowledge of the department.

[SHRJ262] [Contemporary Islamic Issues] [3 credits]

This course deals with the most important contemporary issues such as: human rights in Islam, the status of women in Islam, Islam's view of drugs, Islam's view of the environment, food, and water sanitation, community and peaceful security, the document of human fraternity, and dialogue and tolerance between religions.

[SHRF310] [Islamic Ethics] [3 credits]

This course deals with the general theoretical principles of ethics such as obligation, responsibility, and retribution, a systematic analytical study rooted from the Qur'an, Sunnah, and the biography of the Companions for the ethics of the Muslim preacher and their impact on the advocacy community.

[SHRF316] [Present of the Islamic World] [3 credits]

This course deals with the definition of the conditions of Islamic countries and minorities with a focus on explaining their responsibilities, problems, and possibilities of solving them from an Islamic point of view, the importance of the Islamic world, the factors of unity, the reasons for its backwardness, and monitoring developments in the reality of the Islamic world.

[SHRF317] [Jurisprudence and Methods of Da'wah] [3 credits]

Introducing the da'wah, and the relationship between it and other sharia sciences, and talking about the origins of the da'wah, its sources, the pillars of da'wah, the methods of da'wah, the means of da'wah, and its ways (wisdom, good advice, arguing with the one that is better) (using contemporary techniques in da'wah).

[SHRF318] [Studies in the difference] [3 credits]

An introduction to the study of different schools and the etiquette of difference, the hadith of the separation of the nation, the reasons for the emergence of Islamic schools, examples of Islamic schools: Kharijis, Qadriyya, Jabriyya, Mushabbiha, Mujassima, Murji'a, Mu'tazila, Ash'aris, Maturidiyya, by studying the emergence of each school, presenting its opinions, and discussing them in the light of the Qur'an and Sunnah.

[SHRF321] [Qur'an: Recitation, Memorization and Tajweed II] [3 credits]

Studying the following topics: the pronunciation of the letters, the characteristics of the Lazem letters, the Qalqala and its rulings, the amplification and thinning, and the provisions Ra' (ر), and the twenty-ninth Juz' of the Qur'an (Juz' Tabarak) is memorized. The provisions are to be applied to some of the second ten parts of the Holy Qur'an, from the beginning of Surat Yunus to the end of Surat Al-Ankabut.

[SHRF322] [Tafsir Analysis II] [3 credits]

Studying the verses of Surat Al-An'am from (151-176), Surat An-Nahl (1-29), Surat Al-Mu'minun (1-16), and Surat Al-Waqi'ah (full). According to the analytical interpretation approach (1) with the

linguistical analysis of words, linking sentences and verses, and explaining the accuracy of Quranic expression in stating the meaning, and the beauty of the Qur'anic style, and mentioning the occasion in which the verses were revealed, and the link between them.

[SHRF325] [Objective Interpretation] [3 credits]

This course deals with the definition of objective interpretation, its origin and development, the most prominent works on it, its relationship to other types of interpretation such as (analytical, comprehensive, and comparative) interpretation, and the importance of this type for being the root of the sciences, correcting the track for some of them, knowing the legal ruling of some of them. This course also deals with the research method of objective interpretation: on a topic through the Holy Qur'an or through one surah, as well as the research method in a Qur'anic term, then applied examples on topics from the Qur'an, terms in it, and some surahs from the Qur'an.

[SHRF331] [Hadith rulings II] [3 credits]

This course includes a study of selected hadiths from various topics in the topics of sales, marriage, divorce, felonies, and hudud [Punishments].

[SHRF332] [Hadith Analysis II] [3 credits]

A detailed analytical study of twenty-five hadiths from Sahih al-Bukhari.

[SHRF334] [Approaches of the Muhaddithin] [3 credits]

Defining the approaches, the benefits of studying them, studying the methods of the Muhaddithin in Hadith books, and studying some of the approaches of the great Muhaddithin such as Bukhari, Muslim, and Ahmad.

[SHRF414] [Studies in Religions] [3 credits]

Defining the concept of religion and its necessity for the individual and society, the theory of monotheism and its authenticity, and the study of religions such as: Hinduism, Buddhism, Zoroastrianism, Judaism, and Christianity, by explaining their origins, sources, beliefs, and criticism in the light of the Qur'an and Sunnah through the knowledge of the Qur'an and Sunnah revelations.

[SHRF415] [Logic in Sharia Studies] [3 credits]

Introduction to the science of logic, its history, founders, concept, sections, and its most important topics. Introducing the student to the correct mental thinking approach, divisions, and how to formulate idiomatic definitions and logical rules and their relationship to the science of jurisprudence and the foundations of reasoning in Aqidah and the principles of positivity, in the service of Sharia studies.

[SHRF417] [Contemporary Intellectual Doctrines] [3 credits]

Atheism, Communism, Pragmatism, Existentialism, Democracy, Globalization, Modernism, Humanism and others, by presenting the opinions introduced by these doctrines objectively and stating the facts and falsehoods they contain.

[SHRF418] [Orientalism] [3 credits]

This course deals with the concepts of Orientalism, its founding, its most prominent people, the intellectual and doctrinal roots of Orientalism, its motives, objectives, Orientalism and colonization, Orientalists and Islamic Studies (their studies in the Qur'an and Sunnah, Aqidah, doctrines, and the Arabic language), orientalists' writings on various sciences and knowledge, and the development of orientalist studies in the era.

[SHRF419] [Preaching and Public Speaking] [3 credits]

Introducing preaching and its history, preparing the modern Khutba [sermon], its components, preparing the morals, trends of preaching in the modern era, types of Khutba, its jurisprudential rulings, the message of the mosque in society. Along with practical exercises on preaching and guidance.

[SHRF421] [Qur'an: Recitation, Memorization, and Tajweed III] [3 credits]

The course deals with reviewing the provisions of the first and second levels, explaining the relationship of letters to each other. The twenty-eighth Juz' of the Qur'an (Qad Sami'a) is memorized. And the provisions are to be applied to some of the first ten parts of the Holy Qur'an.

[SHRF426] [Approaches of Tafsir Scholars] [3 credits]

This course deals with the tafsir in the era of the Companions and their most prominent men, the tafsir in the era of the followers and their most prominent men and schools, identifying the "Tafsir by what was transmitted" school and the "Tafsir by opinion", then identifying the imams of the tafsir schools in the era of documentation and their approaches (such as: at-Tabari, az-Zamakhshari, ar-Razi, Abu Hayyan, and others), and identifying the approaches of some contemporary commentators such as al-Alusi, Abdul Rahman as-Saadi, at-Taher bin Ashour, and others.

[SHRF427] [Miracles of the Holy Qur'an] [3 credits]

The reality of the miracle through the miracles of the prophets in general and the Prophet Muhammad, peace and blessings of Allah be upon him, in particular, the advantages of the miracle and the challenge of it, the history of research on the miracles of the Qur'an and the benefits of this knowledge, the study of the different sides of the Qur'anic miracles (descriptive, legislative, scientific, metaphysical, and historical).

[SHRF433] [Authentication of Hadith and Chains of Transmission] [3 credits]

Introducing authentication, its importance, usefulness, origin, literature, and methods of authentication, defining the sources specified in each method of authentication to make the student skillful in it, studying the chains of transmission and the criticism and approval of narrators, and introducing the books of men. Along with an applied study of the chain of transmission of the hadith and its text and how to judge it.

[SHRJ105] [Introduction to Islamic Jurisprudence] [3 credits]

This course deals with the definition of Sharia and jurisprudence (Fiqh), the need for legislation, the characteristics of jurisprudence and Sharia, divisions of jurisprudence, the basic principles of Islamic jurisprudence, the relationship of Sharia with other laws and the current law, the history of Islamic jurisprudence and its development since the beginning of Islam to the present era, schools of jurisprudence and the terms used in each school, suspicions about Islamic jurisprudence and discussions about them, and the theory of eligibility and its rulings.

[SHRJ110] [The Science of Jurisprudence] [3 credits]

This course introduces the principles of jurisprudence, its subject, usefulness, history, and methods of authorship, the legal ruling (definition and types), fundamental rules: general and special, absolute and restricted, the theory of interpretation of texts in the science of jurisprudence, ijtihad (its conditions, occasions, and ruling), imitation, and the purposes of Islamic law.

[SHRJ325] [Jurisprudence of Inheritance and Wills] [3 credits]

Section I: Inheritance: It deals with the rights related to the inheritance, the elements of inheritance, its conditions, reasons, and impediments, estimated duties, withholding it, how to divide the inheritance among the heirs of the owners, and the statement of the share of each of them, and the origins of issues, restitution, and dependency. Section II: Provisions of Wills: It includes the explanation of the meaning of the will, its legitimacy, its ruling, its types, pillars, conditions, provisions, and the legally obligatory will.

[SHRJ657] [System of Government in Islam] [3]

The General Curriculum: Studying the curriculum of the system of government in Islam: the state and its pillars and authorities in Islam, the head of state, his rulings, powers, and responsibilities in the Islamic system, the rules of the system of government in Islam. And the Special Curriculum: An in-depth study of one or more topics of the Islamic system: (Shura and democracy, the responsibility of the ruler and the control of the nation and non-Muslim minorities within the framework of the Islamic state) compared to constitutional law.

17.3.3 Bachelor in Law

Program Mission

By establishing a bachelor's program in law, the College of Sharia and Law aims to achieve both a theoretical dimension and a practical dimension in the field of legal studies, following up on the latest contemporary legal systems, and benefiting from everything new. This requires providing students with the legal knowledge and skills that the program works to achieve and preparing high-level members of specialists in the legal field. In addition, to contributing to achieving the university's mission and enhancing its position at all local, regional and global levels, as it is a tributary of human resources development, and preparing specialists in various branches of law in a way that allows meeting the development needs of the state and preparing graduates capable of being leaders in the world of the future.

Program Goals

The program is designed to achieve the following goals:

- Building a strong and deep legal base for the student in various fields of public and private law.
- Establishing and enhancing the applied professional aspect of theoretical legal sciences for the student.
- Developing higher intellectual abilities and skills for the student.
- Enabling the student to conduct legal research at the bachelor's level according to a sound scientific methodology.
- Instilling the spirit of lifelong learning in the student.
- Providing the student with various work skills to master their use to raise the efficiency of their personal and institutional performance.
- Equipping the student with the ideal values that the jurist should always remember under all circumstances through a continuous commitment to Arab and Islamic values.

Program Learning Outcomes

The graduates of this program will be able to:

1. Know the basic concepts and rules of law.
2. Understand legal concepts and ideas.
3. Apply legal rules to facts.
4. Balance legislative, judicial, and jurisprudential approaches.
5. Analyze legal texts, judicial rulings, and jurisprudential approaches.
6. Prepare legal and research work.
7. Evaluate legal texts and judicial and jurisprudential rulings.

Career Opportunities

Law is known for the breadth of its field of application, as it finds a place in all government and private agencies of all kinds. Therefore, the law graduate enjoys a larger variety of job opportunities, and we can find the most prominent bodies in which the graduate can work. Such as:

- State courts as judges, legal officials, notaries, and executors.

- The Public Prosecution as prosecutors.
- Legal departments in the various ministries as legal advisors.
- The Central Bank, banks operating in the State, and other financial institutions.
- Advocacy.
- Private companies as legal advisors.

17.3.4 Law Course Description

[LAWP110] [Legal Research Methodology] [3 credits]

This course reviews the types of scientific research and its methods after defining it and explaining its objectives and role in knowledge development with a focus on the legal aspect. Along with reviewing the model scientific research plan and the requirements for its implementation presenting cases of its application to legal topics to prepare for the student to conduct their own research after identifying different tools for scientific research and various sources of information. Various methods are used in teaching the course and the student learning process is different from the rest of the courses.

[LAWP111] [Introduction to Law] [3 credits]

This course is divided into two parts: Theory of law includes the definition of the legal rule, its characteristics and divisions, sections of law and its branches, the idea of public order and public morals and their applications, the sources of the legal base, and the scope of time, place, and persons in the application of the law. And Theory of right includes the definition of the right, its types, sources, pillars, persons, objective, use, protection, and proof.

[LAWP114] [Sources of Commitment] [3 credits]

This course includes the study of the definition of commitment and its voluntary and involuntary sources: Voluntary sources of commitment: Include two sources: Contract: A study of the definition of the contract, its elements, the penalty for the failure of these elements or their conditions, the effects of the contract, and the reasons for its dissolution. And Unilateral conduct: The study of the general provisions of unilateral conduct and its applications. Also, Involuntary sources of commitment: A study of the harmful act and its applications, the beneficial act and its applications, and the text of the law.

[LAWP131] [Principles of Commercial Law] [3 credits]

This course includes the following topics: Definition of commercial law and its development, nature, criteria for distinguishing between commercial work and civil work, commercial businesses, and their types according to the Federal Commercial Transactions Law, acquisition of the status of a merchant, duties of the merchant, and commercial shop. Along with an explanation of some commercial contracts such as the sale of the commercial shop and the commercial mortgage.

[LAWB141] [Constitutional Law and Political Systems] [3 credits]

This course deals with the definition of constitutional law and its purpose, its relationship to other branches of law, the sources of written and subsidiary constitutional rules, types of constitutions, methods of their origin, and ensuring the supremacy of the constitution through mechanisms of oversight of the constitutionality of laws. The course also deals with the study of the concept of the state, its pillars, and the basis of its establishment, in addition to the forms of states. It also includes forms and types of government, with a focus on the representative/representative democratic system, and the principle of separation of powers, which defines the different forms of representative government: council, parliamentary, presidential, and mixed. In addition, it shows how power is assigned through elections, how elections are organized and the different electoral systems. The course shows the constitutional guarantees of individual and public rights and freedoms. Finally, the constitutional order of the UAE is explained by how constitutional institutions are formed, competent, and functional.

[LAWB152] [Penal Code - General Section] [3 credits]

This course deals with the study of general provisions in the Federal Penal Code, the definition of the Penal Code, its sections, the statement of its characteristics, its relationship with other laws and criminal sciences, the scope of application of the Penal Code in terms of time, place, and persons, the principle of legality of crimes and penalties, the elements of crime, the reasons for permissibility, criminal responsibility, its conditions and impediments. It also includes the definition of criminal punishment and its types, the definition of criminal punishment, its types and characteristics, the rules for the application of penalties and the principle of individualization of punishment, the reasons for the expiry of punishment, the definition of criminal measures, their types and conditions of application, and the definition of social defense measures, their types, and conditions of application.

[LAWP215] [Provisions of Commitment and Proof] [3 credits]

This course includes the study of two sections. One of which is the provisions of the commitment (effects of the personal right), the means of its implementation by choice and force, as well as the means that guarantee the creditor the fulfillment of the commitment, the description of commitment, and the expiration of the commitment without fulfillment. The second is the provisions of proof in civil and commercial transactions and its general principles, written proof, witness testimony (evidence), presumptions, conclusive order, acknowledgment and interrogation of litigants, oath, inspection and proof of case, and experience.

[LAWP216] [Named Contracts (Sales and Insurance Contracts)] [3 credits]

The course explains the concept of montage in its general framework and acquaints the student with the basics and skills of radio and television montage, its relationship to the artistic production processes for radio and television work, and its impact on the quality and success of the work. The course explains the work steps in artistic production and the relationship of montage with each step. This course also aims to identify the stages that the montage process goes through on radio and television, and to identify the differences between the types of news, program, and dramatic montage, by training students during the weeks of the course on the montage process using a system Non-linear montage through the Davinci Resolve program and its updated versions. On the radio, training is conducted on audio montage programs, and students are given the skill to deal with this program, using the college's studios and laboratories.

[LAWP217] [Named Contracts (Lease and Contractor Contracts)] [3 credits]

This course deals with the definition of named contracts, specifically (contracting and leasing) and the difference between them and other named contracts, and the statement of their pillars, effects, and reasons for their termination.

[LAWP232] [Corporate Law] [3 credits]

This course deals with the definition of commercial companies, explaining the provisions of companies contained in the Federal Commercial Companies Law, namely: partnership companies, limited partnership, limited liability, public shareholding and private shareholding, and a statement of the legislative developments contained in the provisions of this law.

[LAWB244] [Public International Law in English (E)] [3 credits]

This course deals with the definition of international law, its historical development, distinguishing its rules from other rules, explaining its characteristics and branches, the nature of its rules, its relationship to national law, its various sources with a focus on international treaties, the nature of international legal personality with a focus on the state and its elements, its recognition and succession of states, the theory of international responsibility, peaceful means of resolving international disputes, and the status of the individual in the law.

[LAWB245] [Legal Studies in English] [3 credits]

This course deals with the definition of legal terms in English and their applications through the study of different legal paragraphs and some judicial principles.

[LAWB246] [Human Rights in Islam and International Conventions] [3 credits]

This course includes the definition of the right and its sections, human rights, their position among other rights, stages of development and means of protection in international conventions and Islamic law with reference to these rights in the Constitution of the United Arab Emirates. It is one of the courses of the requirements of the university.

[LAWB254] [Penal Code - Crimes against Persons] [3 credits]

This course deals with the definition of the special section of the Penal Code, its characteristics, the criteria of its classification and its relationship to the general section, and the study of crimes against persons, namely: murder, the crime of intentional murder, the crime of manslaughter, crimes of assault on the integrity of the human body, crimes of assault on freedom, endangerment, threats, crimes against honor, crimes against reputation, slander, insults, and disclosure of secrets.

[LAWB255] [Penal Code – Financial Crimes] [3 credits]

This course includes the definition of maritime law, maritime navigation, and its types, elements and provisions of the ship, maritime navigation personnel, maritime exploitation contracts with a focus on the maritime transport contract, the carrier's liability, marine accidents, aid and rescue, and marine losses.

[LAWP440] [Commercial Contracts] [3 credits]

This course includes the definition of the general provisions of the commercial sale contract and the rules governing it and its distinction from the sale contract in civil transactions, and deals with the study of the most important types of commercial sales named in the Commercial Transactions Law such as installment sale, liquidation sale or public auction, as well as the study of the provisions of the international sale of goods as one of the most important types of contemporary commercial sales. The course also includes studying the provisions of the commercial mortgage contract and distinguishing it from the mortgage contract within the framework of civil transactions, as well as studying supply and deposit contracts in public stores and mediation in the commercial environment such as commercial agency, commission agency and brokerage, in addition to the contract of transport of persons and goods.

[LAWB454] [Code of Criminal Procedure] [3 credits]

This course deals with the definition of the Code of Criminal Procedure, its characteristics and purposes, its relationship with other criminal and legal sciences, the application of procedural rules in terms of time, the cases heard by the criminal courts, and the stages that the criminal case goes through the stage of inference and seizure, the stage of preliminary investigation, the stage of criminal trial, and methods of appealing judgments.

[LAWB460] [Internal Practical Training] [3 credits]

The internal practical training course includes how to file a civil and criminal lawsuit and the procedures for the conduct of litigation, through sessions that take place in the internal court of the faculty. This course is held for two hours per week and over the course of a full semester.

[LAWB461] [Graduation Research] [3 credits]

Graduation research is a prerequisite for obtaining a bachelor's degree in law prepared by the students during the fourth year of their studies. The student chooses the title of the research in the fields of law, the department approves it and appoints one of its members as a supervisor. After its completion, the research is submitted to the supervisor at least three weeks before the start of the final exams in four copies. The research is discussed by the supervising professor with another specialist, and a score of one hundred is placed for it.

[LAWB463] [External Practical Training] [3 credits]

The external practical training course includes students visiting federal courts of all kinds, Public Prosecution, criminal laboratory, forensic medicine, prisons, and others. This program is available in the summer semester for a period of six weeks on the Code of Civil Procedure or the Code of Criminal Procedure.

17.4 College of Business Administration

17.4.1 Bachelor of Science in Business Administration

The program offers three specialized concentrations to cater to various career aspirations and industry requirements:

1. **Management:** This concentration focuses on developing strategic thinking, leadership abilities, and problem-solving skills. Students learn to analyse business challenges, design solutions, and lead organizations effectively. The coursework emphasizes organizational dynamics, operational efficiency, and strategic planning.
2. **Human Resource Management:** Designed for students interested in the people side of business, this concentration covers topics such as talent acquisition, employee relations, performance management, and organizational development. Graduates are prepared to handle complex HR issues and foster positive workplace environments that drive organizational success.

Industrial Management: This concentration addresses the growing need for expertise in industrial operations and supply chain management. Students gain insights into production planning, quality control, logistics, and industrial process optimization. The curriculum is ideal for those aiming to pursue careers in manufacturing, logistics, and operations management.

Mission

The Bachelor of Science in Business Administration program aims to equip students with foundational and advanced knowledge in business principles, leadership, and decision-making. The program fosters critical thinking, ethical responsibility, and innovation, preparing graduates to excel in dynamic global markets and contribute effectively to organizational success. Through a combination of theoretical learning and practical application, students develop the skills necessary for professional growth and lifelong learning in various business fields.

Goals

1. **Comprehensive Business Knowledge:** Provide students with a broad understanding of core business concepts across various disciplines, such as management, human resources, finance, and accounting.
2. **Analytical Skills Development:** Cultivate students' abilities to analyse business problems, assess various solutions, and make informed decisions.
3. **Ethical Leadership:** Foster a strong ethical foundation in business practices, emphasizing corporate social responsibility and ethical decision-making.
4. **Teamwork and Collaboration:** Encourage collaborative skills and the ability to work effectively in diverse teams.
5. **Global Perspective:** Expose students to global business practices, encouraging an understanding of different cultural and economic environments.
6. **Adaptability and Continuous Learning:** Prepare students for a constantly changing business environment, emphasizing the importance of lifelong learning.

Program Learning Outcomes

Core Learning Outcomes

PLO 1 Demonstrate a comprehensive understanding of business theories, practices, and trends. *(Level 7 of QFE: Knowledge)*

PLO 2 Apply quantitative and qualitative approaches to evaluate business challenges, develop evidence-based solutions, and make informed decisions. *(Level 7 of QFE: Knowledge, Skill, Role in context)*

PLO 3 Communicate effectively in written and/or verbal forms across diverse business situations. *(Level 7 of QFE: Skill, Autonomy and responsibility)*

PLO 4 Recognize legal and ethical issues in business contexts. *(Level 7 of QFE: Self-development)*

PLO 5 Utilize information technology tools and systems to enhance business operations and decision-making in an international setting. *(Level 7 of QFE: Knowledge, Skill)*

Management Concentration Learning Outcomes

PLO 1 Demonstrate an advanced understanding of management theories and strategies. *(Level 7 of QFE: Knowledge)*

PLO 2 Display effective leadership skills to motivate teams, make strategic decisions, and manage change. *(Level 7 of QFE: Autonomy and responsibility, Role in context, Self-development)*

PLO 3 Cultivate entrepreneurial skills and innovative thinking to develop business models and plans. *(Level 7 of QFE: Knowledge, Skill, Role in context, Self-development)*

PLO 4 Function as an individual and collaborate effectively as a team member in diverse groups. *(Level 7 of QFE: Autonomy and responsibility, Role in context, Self-development)*

PLO 5 Engage in continuous learning, scientific research, and professional development to adapt to new challenges in management practices. *(Level 7 of QFE: Knowledge, Skill, Autonomy and responsibility)*

Industrial Management Learning outcomes

PLO 1 Demonstrate an advanced understanding of industrial management theories and strategies. *(Level 7 of QFE Knowledge).*

PLO 2 Apply advanced techniques, tools, and simulation modeling to solve real-life problems in diverse industrial settings. *(Level 7 of QFE: Knowledge, Skill, Autonomy and responsibility)*

PLO 3 Function as an individual and collaborate effectively as a team member in diverse groups. *(Level 7 of QFE: Autonomy and responsibility, Role in context, Self-development)*

PLO 4 Exhibit full autonomy in technical and supervisory contexts in various industrial environments. *(Level 7 of QFE: Role in Context).*

PLO 5 Engage in continuous learning, scientific research, and professional development to adapt to new challenges in industrial management practices. *(Level 7 of QFE: Knowledge, Skill, Autonomy and responsibility)*

Human Resource Management Learning Outcomes

PLO 1 Demonstrate an advanced understanding of Human Resource Management theories and strategies. *(Level 7 of QFE: Knowledge)*

PLO 2 Demonstrate understanding of labor laws and regulations to ensure that HR practices and policies are compliant with local legal requirements. *(Level 7 of QFE: Knowledge; Skill, Autonomy and responsibility, Self-development)*

PLO 3 Develop comprehensive HR strategies for recruitment and selection, compensation, performance appraisal, employee development and occupational health and safety. *(Level 7 of QFE: Knowledge, Skill, Role in context, Self-development)*

PLO 4 Function as an individual and collaborate effectively as a team member in diverse groups. *(Level 7 of QFE: Autonomy and responsibility, Role in context, Self-development)*

PLO 5 Engage in continuous learning, scientific research, and professional development to adapt to new challenges in management practices. *(Level 7 of QFE: Knowledge, Skill, Autonomy and responsibility)*

Career Opportunities

Management Concentration future jobs include Business Development Manager, Operations Manager, Project Manager, Strategy Consultant, and Entrepreneur.

Human Resource Management Concentration future jobs include Human Resources Manager, Talent Acquisition Specialist, Training and Development Manager, Employee Relations Consultant, and Compensation and Benefits Analyst.

Industrial Management Concentration future jobs include Supply Chain Manager, Production Manager, Logistics Coordinator, Operations Analyst, and Quality Control Specialist.

17.4.2 Course description

[BUS100] [Mathematics for Business] [3 credits]

This course is designed to equip business students with fundamental mathematical concepts and techniques essential for tackling real-world business and management scenarios. It covers basic mathematics with fractions and decimals, algebraic equations, the mathematics of buying and selling, and mathematics applied to bank services. Other topics include simple interest, compound interest, and annuities.

[BUS101] [Principles of Management] [3 credits]

This course presents the current management practices as they apply in the modern business world. The course discusses the four cornerstones of the management function: planning, organizing, leading, and controlling. It addresses the function of management from classical, behavioural, contingency and system perspectives.

[BUS102] [Financial Accounting I] [3 credits]

This course introduces students to the fundamental principles and assumptions underlying financial accounting. Students will learn how to use the double-entry system for recording and reporting economic events in service and merchandising organizations. The course contents include the accounting cycle, application of accrual accounting, cash and receivables, and accounting for merchandising operations.

[BUS200] [Financial Accounting II] [3 credits]

This module continues Financial Accounting I and covers a variety of financial accounting concepts and techniques. It is designed to provide students with an understanding of accounting principles and practices essential for preparing and analyzing financial statements. The module content consists of financial reporting theory and practice relating to selected assets, liabilities, and shareholders' equity items, explicitly focusing on accounting for partnerships and corporations.

[BUS201] [Financial Management] [3 credits]

This course is designed to provide students with a basic understanding of financial decision-making within a firm. The course deals with the goals and functions of financial management, financial analysis, and planning, the time value of money, bond valuation, stock valuation, the capital budgeting process, cost of capital, and risk and return.

[BUS102] [Principles of Microeconomics] [3 credits]

This course introduces economic analysis of the market economy's individual, business, and industry choices. Starting from defining economies and their principles, we will study how the market forces of supply and demand are key determinates for prices. We will see how market economies are efficient and how governments can make our economy less or more efficient. We will delve behind the supply curve to see how firms choose their production levels to maximize profits, culminating in the model of perfect competition. Time permitting, we will look at market failures such as monopoly, externalities, the markets for the factors of production, and the theory of consumer choice.

[BUS203] [Legal Environment of Business] [3 credits]

This course provides a general and practical introduction to the legal environment that affects businesspersons, traders, and other business transactions. It will consider how laws are applied in business contexts and how it impacts upon its activities, contracts, business organizations, companies' law, labor law and commercial transactions. The course will address various legal subjects including

contract law, commercial law, litigation law, Alternative Dispute Resolution (ADR), corporate law, tort law, civil law and liability law, intellectual property and Internet laws. The focus will be on common law, but the course will also consider the civil legal system in the UAE. The course mainly focuses on practical aspects of a business environment.

[BUS204] [Introduction to Business Information Systems (BIS)] [3 credits]

This course is an introduction to the fundamentals of information systems and to the strategic opportunities and challenges presented by these technologies. The course is based on the belief that business opportunities and challenges are best addressed through a fundamental understanding of management and technological concepts. Practical and hands-on exercises and assignments are used to facilitate students' comprehension of the concepts taught. Topics include databases, data communications and networking, local area networking and wireless local area networking technologies, Internet technologies, enterprise systems, and IT security. While there is some introduction to technical details, the real impact of this class is gained by understanding the impact of technology on how business is done.

[BUS205] [Business Communication] [3 credits]

This course introduces students to the essentials of business communication to enable them to achieve better organizational effectiveness and conduct better business transactions. It emphasizes verbal, written, and non-verbal communication skills that are required in any business environment. This course also examines issues related to international and cross-cultural communication.

[BUS210] [Business Statistics] [3 credits]

This course provides the basic statistical concepts and methods common in business applications. The goal is to help the students understand how to use, communicate, and interpret statistics. The knowledge and skills students acquire will help them in other business courses and their business careers. In this course, the students learn the basic descriptive statistical methods, probability rules, sampling distributions, and how to draw inferences about a population mean.

[BUS212] [Principles of Macroeconomics] [3 credits]

Principles of Macroeconomics introduces students to the basic concepts of macroeconomics. Topics covered include the measurement of aggregate output, unemployment, and inflation, determinants of economic growth in the long run, year-to-year fluctuations in economic activity, the role of monetary

and fiscal policy in the economy, comparative advantage in international transactions, and exchange rates.

[BUS 213] [Human Resource Management] [3 credits]

This course is designed to acquaint the students with the theories, practices and methods related to the effective utilization and management of employees in business organizations. It covers the key talent management practices that can be used to facilitate effective position planning, talents recruitment & selection, training & development, performance appraisal, compensation, rewards, and retention.

[BUS214] [Ethics in Islamic Values in Business] [3 credits]

This course covers Ethics in general and Business Ethics in particular. The course addresses these issues from both Western and Islamic perspectives. The course is structured in three parts. The first two parts cover the foundations of ethics from Western and Islamic perspectives. The third part discusses critical ethical issues related to business activities. In this part, the moral concepts and theories are applied to real-life business scenarios covered in the first two parts using real case studies (e.g., Enron, WorldCom, Nestle, Nike, and the like).

[BUS300] [Principles of Marketing] [3 credits]

This course is designed to acquaint students with the scope and nature of the marketing function, the way business organizations build and maintain profitable relationships with customers and create value to optimize their positions in today's dynamic competitive environment. The course will help students understand and develop a marketing plan by integrating the components of the marketing mix and by making valid, sustainable, and ethical decisions. Subjects covered include marketing definition and function, marketing plan process, the marketing environment, key customer-driven marketing strategy decisions (i.e., segmentation, targeting, positioning), and the tactical marketing tools or marketing mix (product, price, Promotion, and Place).

[BUS302] [Organizational Behaviour] [3 credits]

This course covers the basic principles of individual and group behaviour and their applications within organizations. Topics covered include job design, perceptions, learning, communication, decision-making, motivation, group dynamics, conflict management, power and politics, leadership, organizational change and effectiveness.

[BUS303] [Managerial Accounting] [3 credits]

This course explores the role of accounting information in managing organizations. It focuses on the fundamental concepts and analysis techniques that are used in generating management reports. The course also provides practical applications on how the concepts and the techniques are used for planning operations, controlling activities, decision making, and performance evaluation.

[BUS304] [Quantitative Business Analysis] [3 credits]

This course aims to equip business students with various tools and techniques that allow them to identify business problems using quantitative terms, analyse the problem, generate appropriate solutions, and evaluate the results. It clarifies the main stages of the problem-solving process. The course builds analytical decision-making skills concerning real-life service and industrial situations in the areas of linear programming, transportation models, assignments, decision analysis, and regression models. This course will also introduce students to data analysis using Excel and SPSS.

[BUS311] [Islamic Banking & Finance] [3 credits]

The course aims to give its students an overview of Islamic financial institutions and how they differ from conventional ones. It describes the basis of the Islamic Banking and economic System and the prohibition of Riba in commercial dealings. It introduces students to the major Islamic finance transactions like Murabaha, Mudarabah, Ijarah, Musharakah, etc. It gives the students an overview of the legal and regulatory framework in the Islamic finance industry. It trains its students to assess potential issues in Islamic banking today critically.

[BUS312] [Production and Operations Management] [3 credits]

This course examines the principles underlying the management of operations systems, which comprise processes that change or transform inputs into outputs. Potential issues include process analysis and improvement for the manufacturing and/or services organizations, lean operations, project management, inventory planning and control and supply chain coordination.

[BUS313] [Research Methods] [3 credits]

The course introduces students to the basics of Business Research. Students will understand the importance of business research and how research is carried out in business settings. The course will cover qualitative and quantitative research tools (Survey, experimentation, observation, focus group, and in-depth interviews) and the processes of developing and assessing the validity of measurement

tools. The course will also introduce standard sampling procedures and expose students to basic data analysis techniques using SPSS software. At the end of the course, students will complete in a group a research project based on a business topic of interest.

[BUS401] [International Business] [3 credits]

This course is a theoretical and practical introduction to the issues, opportunities, and complexities associated with doing business internationally. The course provides students with a managerial perspective on international business issues. The focus is primarily on the international business environment and the activities of multinational corporations. The topics covered in the course are relevant and applicable to small and medium-sized companies (SMEs), including those operating in a purely domestic context and preparing to serve a foreign market. Among the key topics to be covered are foreign direct investment, international trade, firm and country competitiveness, regional trade associations, international institutions, managerial functions in an international context, and organizational and national cultures.

[BUS402] [Total Quality Management] [3 credits]

This course is designed to give students fundamentals of Total Quality Management with emphasis on contemporary quality planning, control and management approaches, implementations, and criticisms. The students enrolled in this course will learn about various TQM concepts, tools, and techniques and their use in maintaining quality culture, team effectiveness, measuring quality, enhancing productivity, and sustaining competitiveness in an industrial environment. The course also offers learning opportunity for the students about core aspects of quality such as quality assurance and quality control as well as other disciplines requiring quality such as statistical process control, leadership, supplier-customer relationships, employee management, data collection and analysis, productivity, and customer satisfaction. Students will gain theoretical knowledge and practical skills related to TQM.

[BUS412] [Strategic Management] [3 credits]

The Strategic Management course enriches students' understanding of the strategic perspective of the firm. The course draws on and integrates concepts from the functional areas (i.e., marketing, finance, accounting, management, management information systems, and operations) in the analysis and resolution of complex business situations. It allows moving from a functional perspective to a strategic one. Beyond internal integration, strategic management concerns the processes by which firms choose, maintain, or redirect their strategic positions within ever-changing external

environments. The course also explores the issues of defining corporate mission, objectives, and goals. It focuses on the analysis of the firm's external and internal environment to identify reasons for competitive advantage in a global context. In that perspective, the course considers the cultural, ethical, political, and regulatory issues in the global business environment context. Through the combination of lectures, readings, case studies, class engagement, and project papers, this course introduces the students to the concepts, theories, tools, and techniques prerequisite to critical and effective strategic analysis, thinking, and communication.

[MNG320] [Entrepreneurship and Small Business Management] [3 credits]

An overview of the critical problems in entrepreneurship and small business is given in this course. This summarizes the connections between small businesses and entrepreneurs and the fields of strategic planning, operations, human resources, and financial management. Additionally, this course gives the student a general awareness of the fundamental problems in contemporary operations management in manufacturing and service companies. It focuses on creating a competitive business model and strategic business strategy for a small firm or entrepreneurial endeavour. A focus is on tailoring business skills to the practical requirements of small-enterprise owners and entrepreneurs.

[MNG322] [Consumer Behaviour] [3 credits]

The primary goals of this course are to give students a thorough understanding of the key theories and research findings in the field of consumer behavior and to assist them in applying this knowledge to marketing strategies. Utilizing concepts from various fields, including economics, psychology, social psychology, sociology, and anthropology, the course addresses issues including how and why customers act in particular ways or make particular judgments. What drives them? How can I get their interest? Or what motivates people to stick with a specific company or brand? The topics addressed include the formation of attitudes, motivation, perception, persuasion in communication, the decision-making process, learning, and memory. The course also covers the impact of Gulf and United Arab Emirates cultural values on consumer behavior.

[MNG354] [Business Internship] [3 credits]

This course enables students to earn credit for qualifying internships/job experiences in their areas of Human Resource Management. Every internship position is unique, and the experience varies according on the employer's requirements and the qualifications of the student. The general course objectives are as follows:

- Get real-world experience in the subjects they are studying.

- Gain greater comfort operating in a formal business environment.
- Grow their networks of professional contacts.
- Develop better communication and interpersonal skills.
- Recognize the significance of dress codes in professional situations.

[MNG400] [Strategic Planning] [3 credits]

The Strategic Planning course has been designed to cover all the fundamentals needed for effective strategic planning. It provides a range of recognized strategic analysis tools and techniques, considers the factors that help or hinder effective strategy implementation, and recognizes the importance of developing key leadership skills needed in strategic planning. This course uses the principle of hands-on learning to enable students to understand the fundamentals of strategic planning through forums and case studies.

[MNG402] [Managing Change and Innovation] [3 credits]

The primary focus of this course is the variety of ways in which an organizational setting can implement and manage the change process. The course involves an exploration of the theoretical frameworks for planning change and the innovation process. It also critically examines a range of intervention techniques utilized in practice in such processes.

[MNG411] [Leadership and Management] [3 credits]

This course covers the fundamentals of leadership and successful leadership practices. The primary objective is to equip students with academic and practical knowledge and abilities about various leadership methods. Students are exposed to several leadership styles in a business context and their significance for accomplishing the organization's overarching objectives.

[MNG420] [Major Project] [3 credits]

This course is an opportunity for students to demonstrate their ability to collaborate in a group with their supervisor for working on a hands-on practical project focusing on their area of specialization or concentration. Students will work on a research project using their cumulative academic experience to either fill a theoretical gap or solve a practical problem in a real business environment. The project involves actual data (primary and/or secondary) in a realistic setting. During the project, students could collect and process/analyse the data, upon which students will make relevant recommendations related to the issue studied.

[HRM301] [Recruitment and Selection] [3 credits]

This course introduces students to the fundamental principles and techniques of the recruitment and selection of human resources in the workplace. The recruitment and selection course covers the principles, strategies, and best practices involved in the process of attracting, evaluating, and selecting candidates for employment within an organization.

[HRM 310] [Compensations] [3 credits]

This course examines the various types and methods of work-related compensations, including pay and salaries. It exposes students to the fundamental concepts and practices of compensation and benefits administration with emphasis on current theories of compensation and benefits trends, cost, value and systems. In addition, the course provides students with an experiential opportunity to develop the managerial skills necessary to design and understand the performance-based compensation and benefit programs for an organization.

[HRM 400] [Performance Management and Appraisal] [3 credits]

This course exposes students to the main theories and tools relating to performance management. Students will learn how to define and develop individual and organization-level performance indicators, align individual and organizational performance goals and objectives, measure and track performance, diagnose performance deficiencies, and develop and implement group and individually tailored performance improvement systems. In addition, the course will provide an insight on developing and implementing a performance management system in diverse organizational settings. Emphasis will be on familiarizing the students with the mechanisms of performance management in organizations and how it can contribute to developing the talents that is the people of the organization.

[HRM 401] [International Human Resource Management] [3 credits]

This course helps students develop a critical understanding of the role and functions of human resources management in a multinational and global context. It covers topics such as the recruitment and selection of expatriates, performance management, reward systems in a multinational context. Students will also be exposed to the challenge of multiculturalism in the modern workplace. Case studies are used to enhance understanding of the practical issues in international human resource management.

[HRM 410] [Employee Training and Development] [3 credits]

The course is designed to provide a comprehensive understanding of the developments in the field of human resource development (HRD). The emphasis is on how HRD relates to the changing needs of

organizations. The course aims to provide an understanding of strategic HRD initiatives, policies, practices, and development tools to support organizational learning and development competencies. Specifically, it discusses the processes of planning and implementing human resource development programs, assessing the developmental and training needs of the employees, and evaluating the effectiveness of the organizational training and development systems to enhance employee performance and subsequently organization's effectiveness and sustainability.

[HRM354] [Business Internship] [3 credits]

This course enables students to earn credit for qualifying internships/job experiences in their areas of Human Resource Management. Every internship position is unique, and the experience varies according on the employer's requirements and the qualifications of the student. The general course objectives are as follows:

- Get real-world experience in the subjects they are studying.
- Gain greater comfort operating in a formal business environment.
- Grow their networks of professional contacts.
- Develop better communication and interpersonal skills.
- Recognize the significance of dress codes in professional situations.

[pre-req: Minimum 75 Credit Hours and Department Approval]

[HRM420] [Major Project] [3 credits]

This course is an opportunity for students to demonstrate their ability to collaborate in a group with their supervisor for working on a hands-on practical project focusing on their area of specialization or concentration. Students will work on a research project using their cumulative academic experience to either fill a theoretical gap or solve a practical problem in a real business environment. The project involves actual data (primary and/or secondary) in a realistic setting. During the project, students could collect and process/analyze the data, upon which students will make relevant recommendations related to the issue studied.

[IM320] [Enterprise Resource Planning (ERP) Systems] [3 credits]

This course is designed to provide students with an understanding of the components of an ERP system, the process of implementing ERP systems within organizations, and the strategic role of ERP

systems in providing a platform for improved business operations and productivity. Topics covered include systems integration, enterprise systems architecture, ERP development life cycle, ERP implementation strategies, software, and vendor selection. Topics also include business process reengineering, organizational change, and operational and post-implementation activities, focusing on critical enterprise-level systems such as Supply Chain Management, and Customer Resource Management.

[IM354] [Business Internship] [3 credits]

This course enables students to earn credit for qualifying internships/job experiences in their areas of Industrial Management. Every internship position is unique, and the experience varies according on the employer's requirements and the qualifications of the student. The general course objectives are as follows:

- Get real-world experience in the subjects they are studying.
- Gain greater comfort operating in a formal business environment.
- Grow their networks of professional contacts.
- Develop better communication and interpersonal skills.
- Recognize the significance of dress codes in professional situations.

[IM405] [Logistics and Supply Chain Management] [3 credits]

This course provides an overview of the basic analytical instruments, methods, and strategies that are helpful in the planning, development, and management of integrated supply chains and logistics systems. The course material is presented from a managerial point of view, with a focus on the appropriate applications and methods for applying particular tools to raise overall chain performance and lower overall costs. The creation and application of foundational models to represent the underlying ideas involved in intra- and inter-company logistics operations is something we prioritize highly.

[IM406] [Optimization and Modelling] [3 credits]

This course explores optimization and modelling techniques to support effective decision-making in industrial management and business environments. The course introduces students to dynamic programming, queuing theory, linear and integer programming, and metaheuristics. Through a blend of theoretical instruction and practical exercises, students will develop the ability to formulate, solve, and analyze optimization models for different scenarios. The course emphasizes real-world

applications, equipping students with the skills to tackle optimization problems in various business contexts. Collaborative problem-solving and case studies will enable students to apply optimization methodologies and explore innovative solutions to contemporary industrial challenges.

[IM410] [Operational Planning and Scheduling] [3 credits]

Students taking this course will receive an introduction to the functional areas of production and operations management, which are applied in the manufacturing and services sectors. It involves forecasting, aggregate planning, inventory management, materials requirements plan (MRP), just-in-time systems, and aggregate planning.

[IM411] [Project Management] [3 credits]

In this course, students will learn about the principles of project management and how to put those principles into practice when planning and carrying out daily tasks. All the fundamentals of project management are covered in this course, including establishing the project's scope and timeline, making a strategy for project management, planning communications, and incorporating IT technologies into project management.

[IM420] [Major Project] [3 credits]

With an emphasis on their area of specialization or concentration, this course gives students the chance to show that they can work independently under the supervision of a supervisor. Using their combined academic background, students will utilize their research projects to address a theoretical void or resolve a real-world business challenge. In a realistic environment, the project uses genuine data—primary and/or secondary. Undertaking this assignment affords students the chance to gather, handle, and evaluate facts in order to formulate pertinent suggestions concerning the topic under investigation. This project is a group project.

[BUS211] [E-Business] [3 credits]

This course provides an introduction to the basics of electronic business and includes project planning as well as marketing, customer service, and business plan development. The course focuses on how business is carried out, including marketing, web design, and electronic retailing, as well as the advantages and disadvantages of this form of commerce, the infrastructures in place to support this type of electronic business, and the global economy within which it takes place. The course prepares students, as future managers, to critically assess the impact of information systems on e-business. It also introduces those skills required to manage online environments and projects. Students will build

their knowledge of the e-business and e-commerce world, beginning with developing an understanding of the technical and strategic aspects of the online environment. Participants then will build on this by developing hands-on familiarity with the most important online business tools and techniques and conclude by exploring the best practice processes employed in addressing real-world e-business and e-commerce management challenges.

[BUS215] [Business Analytics] [3 credits]

The course is an introduction to business analytics. It focuses on teaching fundamental concepts and tools needed to understand the emerging role of business analytics in organizations. The course also focuses on teaching how to identify, evaluate, and capture business analytic opportunities that create value. Toward this end, students learn basic analytic methods and analyze case studies of organizations that successfully deployed organizations that successfully deploy these techniques.

[BUS315] [Industrial Safety Management] [3 credits]

In addition to providing students with a critical introduction to the broad field of occupational health and safety (OHS), this course will help them gain knowledge by examining some of the specific theoretical and practical issues associated with the topic in detail. In addition, this course will include contemporary occupational health and safety issues within the framework of earlier research to give students the analytical and evaluation abilities necessary to assess current OHS trends.

[BUS320] [Strategic Human Resource Management] [3 credits]

This course is designed to acquaint the students with the theories, practices and methods related to the effective utilization and management of employees in business organizations. It covers the key talent management practices that can be used to facilitate effective position planning, talents recruitment & selection, training & development, performance appraisal, compensation, rewards, and retention.

[HRM330] [UAE Labour Law] [3 credits]

The course examines the laws and practices that govern employment relations in the UAE particularly the Federal Employment Law No. 8 of 1980 (as amended) applicable on UAE businesses. The course will cover a wide-range of areas relating to employment contracts, including laws relating to the scope of employment law in the United Arab Emirates, elements of employment contract such as wages and remunerations, subordination, probation period, working hours, leave entitlements and health

insurance, Emiratization, residency visa and sponsorship, safety in the workplace, termination of labour contracts and labour disputes through the Ministry of Labor and local courts.

[BUS382] [Intermediate Accounting] [3 credits]

This course extends students' knowledge of corporate external financial reporting. It is designed to discuss the conceptual framework of financial accounting, the preparation of financial statements, and a variety of technical issues related to measuring, recording, and reporting economic transactions focusing on cash and receivables, inventories, property, plant, and equipment (PPE), and intangible assets.

[BUS483] [Corporate Social Responsibility] [3 credits]

In this course, students learn how to differentiate and discuss the scope and consequences of corporate decision-making and decisions for various constituencies; develop a framework for discussing good corporate decisions; explore the role and responsibility of the individual in the stewardship of a culture of quality decision-making; explore the role and responsibility of leadership and governance in the formation of policies and processes of good decision-making and best practices; and understand a company's obligation to and impact on its constituencies for the decisions that its leaders make and its employees implement.

[BUS481] [Public Finance] [3 credits]

Students examine the rationale for government intervention in a market economy, the assessment of public policy, and the impact of government expenditures and taxation on the economy and the citizenry. Topics include government activities, externalities, public goods, social security, fiscal deficits and public debt, principles of taxation, incidence and effects, and optimal taxation.

[BUS482] [Cost Accounting] [3 credits]

Cost Accounting concerns providing information to managers inside an organization who direct and control its operation. Upon completing this course, students should be able to determine product costs using traditional and contemporary systems, use a Balanced Scorecard as a strategic management system, and analyse the fundamental features of capacity analysis and inventory costing systems.

[BUS488] [Risk Management] [3 credits]

This course will study how society and business evaluate control and transfer risk. It is intended for students who have no prior experience with risk management. In this course, students will actively

discover the principles of risk management. By learning about the difficulties, resources, and steps involved in creating and executing a risk management program, students will be equipped to work effectively in a corporate setting.

17.5 College of Marine Sciences & Aquatic Biology

17.5.1 Bachelor of Science in Marine Biology

Program Mission

The mission of this program is to offer an exciting and solid education in marine biology, with an international flavour, to national and international students, that will prepare them for successful careers in the governmental-, private-, or academic sectors in the UAE and beyond.

Program Goals

The goals for this program are to:

1. Graduate students with a strong understanding of marine biology and oceanography, that contributes to solving environmental problems in the local and regional marine environment and promotes marine sustainability by conserving and managing marine habitats and resources through research, innovation, and policy.
2. Equip students with the necessary skills and tools for effectively and clearly communicating their knowledge, findings and conclusions to a diverse audience including professionals, decision-makers as well as the public.
3. Educate students capable of critical thinking and problem solving regarding marine sustainability and innovation, relevant to the UAE National agenda and the global community.
4. Graduate students with skills and expertise that are well aligned with job market needs, and that have the credentials to continue with further post-graduate studies locally or internationally.
5. Produce graduates that are excellent team workers, with high professional and ethical standards, that can become leaders in their field as well as in their position.

Program Learning Outcomes

By the end of completion of this program, the student will be able to:

1. Demonstrate strong knowledge and practical skills in Marine Biology, Oceanography, General Biology and Basic Chemistry.
2. Effectively communicate their scientific knowledge, interdisciplinary training, and research findings to peers, professionals, decision-makers, and the public in both oral and written formats.

3. Apply critical thinking and problem-solving skills in their field of study while designing, carrying out, and interpreting the results of experiments or surveys, while evaluating peer reviewed literature, or creating and innovating.
4. Analyse contemporary marine-related environmental issues at both local, regional, and global scales, and incorporate socio-cultural norms while taking on professional responsibility for the stewardship of the marine environment.
5. Critically evaluate and use scientific methods and approaches to collect and analyze scientific data and apply scientific tools and innovative techniques during practical field and laboratory exercises.
6. Develop skills to operate professionally, ethically, and autonomously in the workplace, whether as individuals, as part of a larger team, or as the leader of a team.

Career Opportunities

The possible career opportunities and pathways for Marine Biologists:

- Governmental agencies and ministries
- Academic research and education
- Environmental consulting
- Industry/applied research
- Non-governmental organisations (e.g. WWF, UNEP)
- Aquaculture sector
- Tourism sector
- Marine biotechnology
- Marine policy

Program Curriculum

College Compulsory Requirements (44 Credit Hours)			
Course Number	Course Title	Credit Hours	Prerequisites
MATH101	Mathematics for Scientists	3	-
BIOL101	The Cell and it's Functions	4	-
CHEM101	General Chemistry	4	-
PHYS201	Physics for Marine Scientists	4	-
MATH202	Applied Mathematics for Scientists	3	MATH101

17.5.2 Course Description

[BIOL101] [The Cell and It's Functions] [4 credits]

This course includes general biology topics such as the cell structure, & function, cellular respiration, photosynthesis, cell cycle and its control, and the division of animal phyla & plants & introduction to marine ecology and preservation. The course will also include an introduction to genomics and molecular genetics. Also, animal and plant tissues will be introduced.

[BIOL202] [Evolutionary Biology] [4 credits]

This course involves a general introduction to evolutionary science. Topics will discuss the following: history of evolutionary thought and science, genetics, the main mechanisms, and forces that drive evolution and the tools and findings of evolutionary research, including the evolution of humans and human behavior.

[BIOL203] [Research Methods for Biologists] [3 credits]

This course aims to deepen your understanding of the different types of research and the research process to prepare you for future research. You will develop essential skills in identifying, critiquing, and synthesizing elements of academic research documents, defining a research problem, developing appropriate research questions and/or hypotheses, proposing and justifying a research project and an appropriate research approach. You will also enhance your skills in effectively searching and evaluating relevant literature, applying ethical research practices, and writing and presenting in an academic style.

[BIOL304] [Microbiology] [4 credits]

The aim of this course is to introduce the students to the microbial world with a special emphasis on bacteria. Topics to be covered are bacterial cell structure and function, microbial nutrition, growth, and methods of controlling of microbial growth. Classification of microorganisms, diversity of prokaryotes, principles of the interrelationships of microorganisms and man, and their role in the environment are other key topics of the course.

[BIOL305] [Genetics] [4 credits]

The primary objective of this course is to introduce students to the fundamental concepts of genetics (from the work of Mendel to the current use of molecular techniques), and to emphasize the understanding of genes in the context of cells, tissues and systems. Topics covered throughout the course will include the Mendelian and non-Mendelian inheritance, sex-linked traits, linkage, recombination, bacterial and viral genetic systems, control of gene expression in bacteria and molecular genetic analysis, genome technologies, genome sequencing and analysis tools.

[CHEM101] [General Chemistry] [4 credits]

This course will cover basic principles of measurement and scientific method. Topics covered throughout the course will include the stoichiometry and reactions, gases, atomic structure and periodicity, and bonding.

[CHEM202] [Organic Chemistry] [4 credits]

The aim of this course is for the student to learn to gain a fundamental working knowledge of organic chemistry concepts and techniques which will be necessary for future scientific endeavors. Emphasis will be placed on providing a coherent description of chemistry of saturated hydrocarbons and unsaturated hydrocarbons, alcohols, phenol, ethers and thiols, aldehyde, ketones and chiral molecules, carboxylic acids and derivatives, amines, and amides. Topics covered throughout the course will include IUPAC nomenclature rules for simple organic compounds, structures of simple organic compounds, common reactions of the major functional groups, and the basis of physical and chemical properties of organic compounds.

[MARI201] [Introduction to Oceanography] [4 credits]

This course is designed to give a basic understanding of the science of oceanography, and to provide a greater appreciation of oceanic processes and their impact on the global environment. The course will discuss and describe the basic biological, chemical, geological, hydrological, and physical features and processes of the oceans, including their origin, evolution, uses, and resources.

[MARI202] [Introduction to Marine Biology] [4 credits]

This course is designed to give a basic overview and understanding of marine organisms, the environment in which they live, and challenges they face as the marine environment changes. Students will develop an understanding of the biological principles and processes that are basic to all forms of life in the ocean, including their taxonomy, evolution, ecology, behaviour and physiology. Local case studies, field trips and practical labs will be used to support student learning.

[MARI303] [Marine Ecology and Function] [4 credits]

Marine ecology is the study of how marine organisms interact with their biotic and abiotic environments. In this course we will focus on the ecosystems that dominate the shallow coastal areas of the Gulf of Oman and Arabian Gulf, such as coral reefs, seagrass meadows and mangrove forests, and the animals that live therein. The ecology and natural history of plants and animals, and their adaptation to marine environments will be discussed and studied, both in the field and in the laboratory. The course will focus on the biological and ecological characteristics of these ecosystems. Furthermore, we will explore the ways in which Marine Protected Areas, climate change and tropical cyclones can alter ecological processes, and we will learn how practical field techniques can be employed to assess marine communities. The Marine Ecology and Function course is a 4-credit lecture and laboratory course.

[MARI304] [Marine Plant Biology] [4 credits]

In this course the students will study different types of microscopic and macroscopic plants in the ocean, including their biology, ecological role, and taxonomy. The plant types will include micro- and macroalgae, seagrasses and intertidal mangroves, living at the interface between land and the ocean. Students will learn about their respective importance in carbon and nutrient cycling in the marine environment, environmental issues such as eutrophication, hypoxia, and harmful algal blooms (HAB's), as well as applications for algal mariculture and potential use of algae for biofuel production. Focus will be put on local and regional species and applications, but with globally important examples as well. Students will get practical hands-on experience in identification, monitoring and quantification of marine plants in the environment using different techniques.

[MARI305] [Marine Biology Field Course] [4 credits]

This is a course where the students will spend a significant amount of time in the field and in the laboratory learning and applying different sampling and monitoring techniques across a range of ecosystems including the water column, coral reefs, soft sediments, seagrass beds, rocky shores, and mangrove forests. The students will learn how to make water quality measurements using CTD's and other sensors; taking water- and sediment samples from different depths using different types of samplers; conducting seabed photo- and video surveys of the seabed and making acoustic measurement of seabed bathymetry. Data and environmental samples will be brought back to the laboratory for further analysis and interpretation. Students will also be introduced to remote sensing and GIS for habitat mapping.

[MARI306] [Marine Invertebrates] [4 credits]

In this course students will learn about the weird and wonderful world of marine invertebrates, their form and function in different types of habitats such as coral reefs, soft sediments, seagrass meadows, mangroves, rocky shores and in the water column itself. Students will learn how to sample and identify marine invertebrates using the taxonomic approach, microscopy and a variety of practical techniques such as coring, sieving, and using different nets.

[MARI307] [Sharks, Rays and Bony fishes] [4 credits]

This course covers the taxonomy, anatomy and ecology of sharks and rays (Elasmobranchs) and bony fishes (Osteichthyes). Students will learn about the different local and regional species of sharks, rays and bony fishes, their anatomy, physiology and role in the marine ecosystem. Samples of locally caught fish will be used for dissection and taxonomic studies, and live fish, will be used to study their

physiology and behaviour. A field trip to a local coral reef will provide students with the possibility to identify and study species in their natural habitat.

[MARI408] [Applied Biochemistry] [4 credits]

The aim of this course is for the student to gain a fundamental working knowledge of biochemical concepts and techniques which will be necessary for future scientific endeavors. Emphasis will be placed on providing a coherent description of the major biochemical concepts and techniques alongside a theoretical and chemistry-based understanding of factors affecting the structure and function of important classes of biomolecules and biomacromolecules – from proteins, enzymes to lipids and carbohydrates. Topics covered include chemical principles of biological systems; water, amino acids, proteins (protein structure and stability); introduction to steady-state kinetics; enzyme mechanism; controlling enzyme activity; metabolic circuitry; glucose transport and metabolism; pyruvate metabolism; citric acid cycle; electron flow and oxidative phosphorylation; glycogen metabolism; gluconeogenesis and the pentose shunt; fatty acid catabolism and synthesis; disposal of nitrogen: the urea cycle; amino acid catabolism and synthesis. It will also include an introduction to marine biochemistry and the latest methods and techniques applied to extract and isolate high-valued marine-based bioactive compounds.

[MARI409] [Marine Mammals and Reptiles] [4 credits]

In this course students will learn about biology, evolution and ecology of marine mammals including whales, dolphins, porpoises (Cetaceans) and dugongs (Sirenia). The course will also cover the biology and ecology of marine reptiles such as sea turtles (Chelonioidae) and sea snakes (Hydrophiinae). The focus will be on the local/regional species, but with some examples from other parts of the world. Students will get hands-on experience in surveying and monitoring techniques of these majestic animals, and to possibly examine them at close range, and to study how they can be protected from extinction.

[MARI410] [Marine Pollution] [4 credits]

The aim of this course is to provide an in depth understanding and analysis of the uptake, accumulation, and fate of pollutants in the marine ecosystem. Topics to be covered will include different types of marine pollutants, monitoring strategies, and mitigation strategies.

[MARI411] [Internship in Marine Science] [3 credits]

The Internship course will provide professional experience for marine biology students in a challenging but supportive working environment of their choice (as long as it has relevance to the marine

environment). It will enable the students to enhance their interpersonal skills, increase self-confidence and apply knowledge and skills gained during their studies at the University of Khorfakkan, in a professional setting.

[MARI412] [Marine Conservation Biology] [3 credits]

In this course we will evaluate and compare different solutions and strategies for mitigating various environmental threats to marine biodiversity. Issues such as climate change, overfishing, hypoxia and marine pollution and their respective impacts on marine organisms will be discussed on both local and global scales. Different conservation and mitigation strategies such as nature-based solutions, marine protected areas, fishing quotas, habitat restoration, as well as associated

environmental policy, will be compared against the socioeconomic and environmental challenges we're currently facing. Examples and case studies from local conservation efforts will be emphasized.

[MARI413] [Senior Research Project in Marine Biology] [6 credits]

In this course we will evaluate and compare different solutions and strategies for mitigating various environmental threats to marine biodiversity. Issues such as climate change, overfishing, hypoxia and marine pollution and their respective impacts on marine organisms will be discussed on both local and global scales. Different conservation and mitigation strategies such as nature-based solutions, marine protected areas, fishing quotas, habitat restoration, as well as associated environmental policy, will be compared against the socioeconomic and environmental challenges we're currently facing. Examples and case studies from local conservation efforts will be emphasized.

[PHYS201] [Physics for Marine Science] [4 credits]

Vectors and Units, Kinematics Equations, Forces and laws of Motion, Torque and Equilibrium, Work and Energy, Fluids, Temperature, Heat and Heat Transfer. Time allowing: Waves and Sound Electric Forces, Electric Fields and Electrical Potential Energy, Electric circuits, Magnetic Forces, Magnetic Field and Magnetism, Light and Optics, Particles, waves and Atoms.

18. Academic regulations

18.1 Grading system for bachelor's

Bachelor's Degrees:

Grades Percentage	Grades	Points
90 to 100	A	4

85 to less than 90	B+	3.5
80 to less than 85	B	3
75 to less than 80	C+	2.5
70 to less than 75	C	2
65 to less than 70	D+	1.5
60 to less than 65	D	1
Less than 60	F	0

CGPA for bachelor's Degrees:

CGPA Points	Grades
3.60 to 4.00	Excellent
3.00 to less than 3.60	Very Good
2.5 to less than 3.00	Good
2.5 to less than 2.50	Satisfactory
Below 2.00	Fail

18.2 Academic progress

The Academic Progress Policy is intended to provide a benchmark for UKF students with minimal academic achievement in a transparent and equitable process. UKF will provide academic advisors for all students to maintain satisfactory academic progress at the early stages of their enrollment to assist them in planning their study plans. If the student fails to show improvement over a specified period, he/she will be terminated from the program. (For policy procedures, please refer to Student Handbook)

19. Faculty list

Name	latest Educational Qualification	Major	Name of the University
Dr. Abbas Ramadani	PhD	Philosophy	University of Utara Malaysia
Dr. Abdullah Kassem Abdullah	PhD	Communication	University of Sharjah
Dr. Huda Hassan Ali Ibraheem Alnaqbi	PhD	Criminology	Universit of Moath - Jordan

Dr. Esaaf Ahmed Hamad	PhD	Sociology	Damascus University
Dr. Maher Odeh Falah Alshamaileh	PhD	Geography	The Maharaja Sayajirao University of Baroda
Dr. Emadeddin Ahmed Ahmed Abuelenain	PhD	Tourism Studies	Helwan University
Dr. Zezif Moutafa Abdou Noufal	PhD	Social Work	Cairo University
Mr. Lahcen Damiri	Master	General Linguistics and Comparative Philology	University of Oxford
Dr. Aamna Musabbeh Ali Alqaydi	PhD	Arabic Language and Literature, Specializing in Language and Grammar	Al wasl University
Dr. Thabet Ghazi Bader Al Omari	PhD	History/Modern and Contemporary History	University of Yarmook
Dr. Issam Mustafa Abdel Hadi Okleh	PhD	History	University of Jordan
Dr. Fatin Ahmed Mohamed	PhD	Computer Science	Universiti Teknologi Malaysia
Dr. Mustafa Salim Mustafa Mustafa	PhD	Law	University of Mosul
Prof. Muayad Ahmad Muhialdeen Obeidat	PhD	Law	University of Mosul
Dr. Bashar Talal Ahmad Momani	PhD	Law	University of Almansoor
Dr. Nada Zuhair Saeed Alfil	PhD	Law	University of Mosul
Dr. Khalid Mohamed Ibrahim Dganni	PhD	Law	University of Ain Shams
Dr. Fatima Hafiz Irshad Ul Haq	PhD	Hadith and Sciences	University of Sharjah
Dr. Samya Elfatih Taha Elhag	PhD	Law	Omdurman Islamic University

Dr. Shaika Ahmed Mohamed Altaffaq Almarashda	PhD	fiqh	University of Sharjah
Mr. Hashim Hassan SayedAhmed Abdalla Alhammadi	Master	Business Administration	UAE University of Modern Sciences
Dr. Roqaya Abbas Mohamed Ismail	PhD	Engineering	Khalifa University
Dr. John Henrik Stahl	PhD	Environmental Science	Goteborgs University
Dr. Eman Ahmed Mohamed Ali	PhD	Sociology	University of Juba
Dr. Amina Ibrahim Ahmed Ibrahim Alameeri	PhD	Sociology	University of Sharjah
Dr. Ayman Ahmed Mohamed Mahmoud	PhD	History	University of Cairo
Dr. Hanan Suleiman Mohammed Malkawi	PhD	Philosophy	University of Jordan
Dr. Nagwa Ibrahim Abdelgawad Zoair	PhD	Geography,History,Art and Tourism	University of Lyon
Dr. Mhran Mahmoud Ahmad Alzo'ubi	PhD	History	University of Jordan
Dr. Mohamed Mallek	PhD	Science and comunication	University of Algerienne
Dr. Moustafa Mohamed Abouelnour Abdelmawla	PhD	Arabic and Lecturer	Ain Shams University
Dr. Mustafa Raza Rabbani	PhD	Finance and accounting	Jamia Millia Islamia (A Central University by an Act of Parliament)
Dr. Ahmed Ali Eid Al Hiyarai	PhD	Accounting	University Utara Malaysia
Dr. Ali Haj Khalifa	PhD	Economic Sciences and Management	University of Sfax
Dr. Redha Bougherza	PhD	Sociology	University of Sateef

Dr. Muhammad Ali Asadullah	PhD	Management HRM & OB	Universite Daix-Marseille
Dr. Asmaa Abobakerelsadik Hassan Hegazy	PhD	Public Relation and Advertising	Cairo University
Dr. Akbar John Bava John	PhD	Biotechnology	International Islamic University Malaysia
Dr. Alaa Mashan Ubaid Ubaid	PhD	Engineering Management	University of Sharjah
Dr. Gomaa Abdelgawad Mohammed Ali	PhD	Advanced Materials	University Malaysia Pahang
Dr. Walaa Abdelrahman Abdelghafar Fouda	PhD	Mass Communication	Cairo University
Dr. Osman Siraj Eldeen Fath Elrhman	PhD	Sociology	Al Neelain University
Dr. Masuda Waradak	PhD	Educational Research	Lancaster University
Prof. Amir Hamza Youssef Salama	PhD	Linguistics	Lancaster University
Ms. Olga Golding	Mater	Applied Linguistics	University of New England
Mr. Muayad Ahmad Saed Al-Toubat	Mater	Applied Linguistics	Jordan University of Science and Technology
Prof. Kashif Kifayat	PhD	Recognition of a Programme of Work Entitled	Liverpool John Moores University
Dr. Ruqeya Cheragh Abdalla Abdelrahman Alrayssi	PhD	Sociology	Tunis University
Dr. Hanadi Sharif Murad Mohamed Bakhsh	PhD	Law	UNIVERSITY OF SHARJAH
Dr. Tarig Elshaarani Mohamed Ali	PhD	Chemical Engineering Technology	Zhejiang University
Dr. Mariam Mubarak Khamis Mubarak Alkindi	PhD	Exegesis and Quran Sciences	UNIVERSITY OF SHARJAH

Dr. Kaltham Abbas Mohammed Ismail	PhD	Engineering	Khalifa University
Dr. Fakhri Abdelgadir Ali Elfaki	PhD	Communication Studies/Public Relations	Nile Valley University
Dr. Aaron Christopher Henderson	PhD	Zoology	The National University of Ireland
Dr. Fatma Galal Abdalla Shehabeldin	PhD	Law	Ain Shams University
Ms. Safa Emad Ali Al Rafai	Mater	Mathematics	UAEU-United Arab Emirates University
